THE VALUE LINE Investment Survey®

Part 1
Summary & Index

File at the front of the *Ratings & Reports* binder. Last week's *Summary & Index* should be removed.

October 2, 2026

TABLE OF SUMMARY & INDEX CONTENTS

Summary & Index Page Number

Industries, in alphabetical order 1
Stocks, in alphabetical order 2-22
Noteworthy Rank Changes 24

SCREENS

Industries, in order of Timeliness Rank 24
Timely Stocks in Timely Industries 25-26
Timely Stocks (1 & 2 for Performance) 27-29
Conservative Stocks (1 & 2 for Safety) 30-31
Highest Dividend Yielding Stocks 32
Stocks with High 3- to 5-year Price Potential 32
Biggest "Free Flow" Cash Generators 33
Best Performing Stocks last 13 Weeks 33
Worst Performing Stocks last 13 Weeks 33
Widest Discounts from Book Value 34
Stocks with Lowest P/Es 35
Stocks with Highest P/Es 35
Stocks with Highest Annual Total Returns 36
Stocks with Highest 3- to 5-year Dividend Yield 36
High Returns Earned on Total Capital 37
Bargain Basement Stocks 37
Untimely Stocks (5 for Performance) 38
Highest Dividend Yielding Non-utility Stocks 38
Highest Growth Stocks 39

The Median of Estimated **PRICE-EARNINGS RATIOS** of all stocks with earnings

17.2

26 Weeks Ago	Market Low 3-23-20	Market High 8-13-26
17.9	11.0	18.1

The Median of Estimated **DIVIDEND YIELDS** (next 12 months) of all dividend paying stocks

2.0%

26 Weeks Ago	Market Low 3-23-20	Market High 8-13-26
2.1%	3.7%	1.9%

The Median Estimated **THREE-TO-FIVE YEAR PRICE APPRECIATION POTENTIAL** of all stocks in the VL Universe

50%

26 Weeks Ago	Market Low 3-23-20	Market High 8-13-26
55%	145%	40%

The Median Estimated **18-MONTH APPRECIATION POTENTIAL TO TARGET PRICE RANGE** of all stocks in the VL Universe

19%

26 Weeks Ago	Market Low 3-23-20	Market High 8-13-26
19%	72%	16%

ANALYSES OF INDUSTRIES IN ALPHABETICAL ORDER WITH PAGE NUMBER

Numeral in parenthesis after the industry is rank for probable performance (next 12 months).

★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

Volume LXXXII, Number 9, Issue 9. The Value Line Investment Survey (ISSN 0042-2401) is published weekly by Value Line Publishing LLC, 551 Fifth Avenue New York, NY 10176 and is accorded expeditious treatment prescribed for newspapers. Subscription rate for one year in the United States and US possessions is $598. Foreign rates upon request. Periodical Postage Paid at New York, NY and additional mailing offices.

(•) All data adjusted for announced stock split or stock dividend. See back page of Ratings & Reports.
◆ New figure this week.
(b) Canadian Dollars.
(d) Deficit.
(f) The estimate may reflect a probable increase or decrease. If a dividend boost or cut is possible but not probable, two figures are shown, the first is the more likely.
(g) Dividends subject to foreign withholding tax for U.S. residents.
(h) Est'd Earnings & Est'd Dividends after conversion to U.S. dollars at Value Line estimated translation rate.
(j) All Index data expressed in hundreds.
(p) 6 months (q) Asset Value
N=Negative figure NA=Not available NMF=No meaningful figure

★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

(•) All data adjusted for announced stock split or stock dividend. See back page of Ratings & Reports.
◆ New figure this week.
(b) Canadian Dollars.
(d) Deficit.
(f) The estimate may reflect a probable increase or decrease. If a dividend boost or cut is possible but not probable, two figures are shown, the first is the more likely.
(g) Dividends subject to foreign withholding tax for U.S. residents.
(h) Est'd Earnings & Est'd Dividends after conversion to U.S. dollars at Value Line estimated translation rate.
(j) All Index data expressed in hundreds.
(p) 6 months (q) Asset Value
N=Negative figure NA=Not available NMF=No meaningful figure

★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

(•) All data adjusted for announced stock split or stock dividend. See back page of Ratings & Reports.
◆ New figure this week.
(b) Canadian Dollars.
(d) Deficit.
(f) The estimate may reflect a probable increase or decrease. If a dividend boost or cut is possible but not probable, two figures are shown, the first is the more likely.
(g) Dividends subject to foreign withholding tax for U.S. residents.
(h) Est'd Earnings & Est'd Dividends after conversion to U.S. dollars at Value Line estimated translation rate.
(j) All Index data expressed in hundreds.
(p) 6 months (q) Asset Value
N=Negative figure NA=Not available NMF=No meaningful figure

★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

(•) All data adjusted for announced stock split or stock dividend. See back page of Ratings & Reports.
◆ New figure this week.
(b) Canadian Dollars.
(d) Deficit.
(f) The estimate may reflect a probable increase or decrease. If a dividend boost or cut is possible but not probable, two figures are shown, the first is the more likely.
(g) Dividends subject to foreign withholding tax for U.S. residents.
(h) Est'd Earnings & Est'd Dividends after conversion to U.S. dollars at Value Line estimated translation rate.
(j) All Index data expressed in hundreds.
(p) 6 months (q) Asset Value
N=Negative figure NA=Not available NMF=No meaningful figure

★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

(•) All data adjusted for announced stock split or stock dividend. See back page of Ratings & Reports.
◆ New figure this week.
(b) Canadian Dollars.
(d) Deficit.
(f) The estimate may reflect a probable increase or decrease. If a dividend boost or cut is possible but not probable, two figures are shown, the first is the more likely.
(g) Dividends subject to foreign withholding tax for U.S. residents.
(h) Est'd Earnings & Est'd Dividends after conversion to U.S. dollars at Value Line estimated translation rate.
(j) All Index data expressed in hundreds.
(p) 6 months (q) Asset Value
N=Negative figure NA=Not available NMF=No meaningful figure

★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

(•) All data adjusted for announced stock split or stock dividend. See back page of Ratings & Reports.
◆ New figure this week.
(b) Canadian Dollars.
(d) Deficit.
(f) The estimate may reflect a probable increase or decrease. If a dividend boost or cut is possible but not probable, two figures are shown, the first is the more likely.
(g) Dividends subject to foreign withholding tax for U.S. residents.
(h) Est'd Earnings & Est'd Dividends after conversion to U.S. dollars at Value Line estimated translation rate.
(j) All Index data expressed in hundreds.
(p) 6 months (q) Asset Value
N=Negative figure NA=Not available NMF=No meaningful figure

★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

The Value Line INFORMATION YOU SHOULD KNOW — Wealth Newsletter - No matter where you are in life, you can successfully plan and save for the retirement you want. We can help. Each month, you will learn the answers you need to know to basic planning questions.

Special Situations - *The Value Line Special Situations Service* is designed for those seeking investment ideas in the small-cap arena that span the range from aggressive to income oriented.

Select - Once a month, subscribers receive a detailed report by *Value Line* senior analysts, recommending one stock that has the best upside and risk/reward ratio.

Value Line Select: Dividend Income & Growth - A monthly, in-depth report recommending one dividend-paying stock, providing extensive information about the company's finances, prospects, and projected earnings. One alternative selection is also evaluated.

Value Line Select: ETFs - Once a month, subscribers receive a thorough report by Value Line senior analysts, recommending one ETF that is expected to outperform the broader market.

Fund Advisor Plus - An essential, one-of-a-kind investment guide that recommends a model portfolio of mutual funds based on risk tolerance and time horizon. The service also includes data and analysis on 20,000 mutual funds.

Options Survey - Interactive daily analysis and rankings of more than 200,000 Stock and Stock Index Options—now with Bid and Ask Prices and Evaluations.

The Value Line Climate Change Investing Service – Subscribers receive an insightful monthly report by *Value Line* analysts that is designed for the climate-conscious, profit-oriented investor. It also includes a managed portfolio of twenty stocks that stand to benefit from business opportunities related to Climate Change.

The Value Line Mergers & Acquisitions Service - This service is designed for investors who are interested in mergers & acquisitions. The objective of the publication is to identify companies (one per month) that offer characteristics that would interest larger corporations or private equity firms.

***Based on the Timeliness™ ranks of the stocks in the industry**

Noteworthy Rank Changes

Listed below are some of the stocks whose Timeliness ranks have changed this week. We include mostly rank changes caused by fundamentals such as new earnings reports. Even when a significant change in earnings momentum has been forecast, the stock's rank will not be affected until the actual results, confirming that forecast, are reported. In most cases, we omit stocks that have been bumped up or down in rank by the dynamism of the ranking system.

STOCKS MOVING UP IN TIMELINESS RANK

Stock Name	Old Rank	New Rank	Reason for Change	Earnings Est. 12 months to 3-31-27
Arista Networks	2	1	Dynamism of the ranking system.	
Best Buy Co.	2	1	Dynamism of the ranking system.	
DaVita Inc.	2	1	Dynamism of the ranking system.	
Dynatrace Inc	2	1	Dynamism of the ranking system.	
IQVIA Holdings	2	1	Dynamism of the ranking system.	
SPS Commerce	2	1	Dynamism of the ranking system.	

STOCKS MOVING DOWN IN TIMELINESS RANK

Stock Name	Old Rank	New Rank	Reason for Change	Earnings Est. 12 months to 3-31-27
Allstate Corp.	1	2	Dynamism of the ranking system.	
ARAMARK Holdings	1	2	Dynamism of the ranking system.	
Cardinal Health	1	2	Dynamism of the ranking system.	
CarMax, Inc.	1	2	Dynamism of the ranking system.	
ExlService Hldgs Inc	1	2	Dynamism of the ranking system.	
Hunt (J.B.)	1	2	Dynamism of the ranking system.

Officers, directors, or employees of Value Line, Inc. and its affiliates and subsidiaries ("VLI") , and EULAV Asset Management ("EULAV"), may hold stocks that are reviewed or recommended in this publication. EULAV also manages investment companies and other accounts that use the rankings and recommendations in this publication as part of their investment strategies. These accounts, as well as the officers, directors, employees of VLI, may dispose of a security notwithstanding the fact that The Value Line Investment Survey (the "Survey") ranks the issuer favorably; conversely, such accounts or persons may purchase or hold a security that is poorly ranked by the Survey. Some of the investment companies managed by EULAV only hold securities with a specified minimum Timeliness Rank by the Survey and dispose of those positions when the Timeliness Rank declines or is suspended. Subscribers to the Survey and its related publications as well as some institutional customers of VLI will have access to all updated Ranks in the Survey by 8:00 AM each Monday. At the same time, portfolio managers for EULAV will receive reports providing Timeliness Ranking information. EULAV's portfolio managers also may have access to publicly available information that may ultimately result in or influence a change in rankings or recommendations, such as earnings releases, changes in market value or disclosure of corporate transactions. The investment companies or accounts may trade upon such information prior to a change in ranking. While the rankings in the Survey are intended to be predictive of future relative performance of an issuer's securities, the Survey is not intended to constitute a recommendation of any specific security. Any investment decision with respect to any issuer covered by the Survey should be made as part of a diversified portfolio of equity securities and in light of an investor's particular investment objectives and circumstances. ★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

Volume LXXXII, Number 8, Issue 8. The Value Line Investment Survey (ISSN 0042-2401) is published weekly by Value Line Publishing LLC, 551 Fifth Avenue New York, NY 10176 and is accorded expeditious treatment prescribed for newspapers. Subscription rate for one year in the United States and US possessions is $598. Foreign rates upon request. Periodical Postage Paid at New York, NY and additional mailing offices.

★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

(•) All data adjusted for announced stock split or stock dividend. See back page of Ratings & Reports.
◆ New figure this week.
(b) Canadian Dollars.
(d) Deficit.
(f) The estimate may reflect a probable increase or decrease. If a dividend boost or cut is possible but not probable, two figures are shown, the first is the more likely.
(g) Dividends subject to foreign withholding tax for U.S. residents.
(h) Est'd Earnings & Est'd Dividends after conversion to U.S. dollars at Value Line estimated translation rate.
(j) All Index data expressed in hundreds.
(p) 6 months (q) Asset Value
N=Negative figure NA=Not available NMF=No meaningful figure

★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

(•) All data adjusted for announced stock split or stock dividend. See back page of Ratings & Reports.
◆ New figure this week.
(b) Canadian Dollars.
(d) Deficit.
(f) The estimate may reflect a probable increase or decrease. If a dividend boost or cut is possible but not probable, two figures are shown, the first is the more likely.
(g) Dividends subject to foreign withholding tax for U.S. residents.
(h) Est'd Earnings & Est'd Dividends after conversion to U.S. dollars at Value Line estimated translation rate.
(j) All Index data expressed in hundreds.
(p) 6 months (q) Asset Value
N=Negative figure NA=Not available NMF=No meaningful figure

★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

The Value Line INFORMATION YOU SHOULD KNOW — Wealth Newsletter - No matter where you are in life, you can successfully plan and save for the retirement you want. We can help. Each month, you will learn the answers you need to know to basic planning questions.

Special Situations - *The Value Line Special Situations Service* is designed for those seeking investment ideas in the small-cap arena that span the range from aggressive to income oriented.

Select - Once a month, subscribers receive a detailed report by *Value Line* senior analysts, recommending one stock that has the best upside and risk/reward ratio.

Value Line Select: Dividend Income & Growth - A monthly, in-depth report recommending one dividend-paying stock, providing extensive information about the company's finances, prospects, and projected earnings. One alternative selection is also evaluated.

Value Line Select: ETFs - Once a month, subscribers receive a thorough report by Value Line senior analysts, recommending one ETF that is expected to outperform the broader market.

Fund Advisor Plus - An essential, one-of-a-kind investment guide that recommends a model portfolio of mutual funds based on risk tolerance and time horizon. The service also includes data and analysis on 20,000 mutual funds.

Options Survey - Interactive daily analysis and rankings of more than 200,000 Stock and Stock Index Options—now with Bid and Ask Prices and Evaluations.

The Value Line Climate Change Investing Service – Subscribers receive an insightful monthly report by *Value Line* analysts that is designed for the climate-conscious, profit-oriented investor. It also includes a managed portfolio of twenty stocks that stand to benefit from business opportunities related to Climate Change.

The Value Line Mergers & Acquisitions Service - This service is designed for investors who are interested in mergers & acquisitions. The objective of the publication is to identify companies (one per month) that offer characteristics that would interest larger corporations or private equity firms.

***Based on the Timeliness™ ranks of the stocks in the industry**

Noteworthy Rank Changes

Listed below are some of the stocks whose Timeliness ranks have changed this week. We include mostly rank changes caused by fundamentals such as new earnings reports. Even when a significant change in earnings momentum has been forecast, the stock's rank will not be affected until the actual results, confirming that forecast, are reported. In most cases, we omit stocks that have been bumped up or down in rank by the dynamism of the ranking system.

STOCKS MOVING UP IN TIMELINESS RANK

Stock Name	Old Rank	New Rank	Reason for Change	Earnings Est. 12 months to 3-31-27
Chefs' Warehouse	2	1	Dynamism of the ranking system.	
Dropbox, Inc.	2	1	Dynamism of the ranking system.	
Enterprise Products	2	1	Dynamism of the ranking system.	
Int'l Seaways Inc	2	1	Dynamism of the ranking system.	
Keysight Technologies	2	1	Dynamism of the ranking system.	
Molina Healthcare	2	1	Dynamism of the ranking system.	
Signet Jewelers Ltd.	2	1	Dynamism of the ranking system.	
United Microelectronics	2	1	Dynamism of the ranking system.	

STOCKS MOVING DOWN IN TIMELINESS RANK

Stock Name	Old Rank	New Rank	Reason for Change	Earnings Est. 12 months to 3-31-27
Block (H&R)	1	2	Dynamism of the ranking system.	
Brink's (The) Co.	1	2	Dynamism of the ranking system.	
Charles River	1	2	Dynamism of the ranking system.	
Cheesecake Factory	1	2	Dynamism of the ranking system.	
Covista Inc.	1	2	Dynamism of the ranking system.	
Lilly (Eli)	1	2	Dynamism of the ranking system.	
Marvell Technology	1	2	Dynamism of the ranking system.	
Tenable Holdings	1	2	Dynamism of the ranking system.

Officers, directors, or employees of Value Line, Inc. and its affiliates and subsidiaries ("VLI") , and EULAV Asset Management ("EULAV"), may hold stocks that are reviewed or recommended in this publication. EULAV also manages investment companies and other accounts that use the rankings and recommendations in this publication as part of their investment strategies. These accounts, as well as the officers, directors, employees of VLI, may dispose of a security notwithstanding the fact that The Value Line Investment Survey (the "Survey") ranks the issuer favorably; conversely, such accounts or persons may purchase or hold a security that is poorly ranked by the Survey. Some of the investment companies managed by EULAV only hold securities with a specified minimum Timeliness Rank by the Survey and dispose of those positions when the Timeliness Rank declines or is suspended. Subscribers to the Survey and its related publications as well as some institutional customers of VLI will have access to all updated Ranks in the Survey by 8:00 AM each Monday. At the same time, portfolio managers for EULAV will receive reports providing Timeliness Ranking information. EULAV's portfolio managers also may have access to publicly available information that may ultimately result in or influence a change in rankings or recommendations, such as earnings releases, changes in market value or disclosure of corporate transactions. The investment companies or accounts may trade upon such information prior to a change in ranking. While the rankings in the Survey are intended to be predictive of future relative performance of an issuer's securities, the Survey is not intended to constitute a recommendation of any specific security. Any investment decision with respect to any issuer covered by the Survey should be made as part of a diversified portfolio of equity securities and in light of an investor's particular investment objectives and circumstances. ★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

Volume LXXXII, Number 7, Issue 7. The Value Line Investment Survey (ISSN 0042-2401) is published weekly by Value Line Publishing LLC, 551 Fifth Avenue New York, NY 10176 and is accorded expeditious treatment prescribed for newspapers. Subscription rate for one year in the United States and US possessions is $598. Foreign rates upon request. Periodical Postage Paid at New York, NY and additional mailing offices.

★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

(•) All data adjusted for announced stock split or stock dividend. See back page of Ratings & Reports.
◆ New figure this week.
(b) Canadian Dollars.
(d) Deficit.
(f) The estimate may reflect a probable increase or decrease. If a dividend boost or cut is possible but not probable, two figures are shown, the first is the more likely.
(g) Dividends subject to foreign withholding tax for U.S. residents.
(h) Est'd Earnings & Est'd Dividends after conversion to U.S. dollars at Value Line estimated translation rate.
(j) All Index data expressed in hundreds.
(p) 6 months (q) Asset Value
N=Negative figure NA=Not available NMF=No meaningful figure

★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

(•) All data adjusted for announced stock split or stock dividend. See back page of Ratings & Reports.
◆ New figure this week.
(b) Canadian Dollars.
(d) Deficit.
(f) The estimate may reflect a probable increase or decrease. If a dividend boost or cut is possible but not probable, two figures are shown, the first is the more likely.
(g) Dividends subject to foreign withholding tax for U.S. residents.
(h) Est'd Earnings & Est'd Dividends after conversion to U.S. dollars at Value Line estimated translation rate.
(j) All Index data expressed in hundreds.
(p) 6 months (q) Asset Value
N=Negative figure NA=Not available NMF=No meaningful figure

★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

(•) All data adjusted for announced stock split or stock dividend. See back page of Ratings & Reports.
◆ New figure this week.
(b) Canadian Dollars.
(d) Deficit.
(f) The estimate may reflect a probable increase or decrease. If a dividend boost or cut is possible but not probable, two figures are shown, the first is the more likely.
(g) Dividends subject to foreign withholding tax for U.S. residents.
(h) Est'd Earnings & Est'd Dividends after conversion to U.S. dollars at Value Line estimated translation rate.
(j) All Index data expressed in hundreds.
(p) 6 months (q) Asset Value
N=Negative figure NA=Not available NMF=No meaningful figure

★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

***Based on the Timeliness™ ranks of the stocks in the industry**

Noteworthy Rank Changes

Listed below are some of the stocks whose Timeliness ranks have changed this week. We include mostly rank changes caused by fundamentals such as new earnings reports. Even when a significant change in earnings momentum has been forecast, the stock's rank will not be affected until the actual results, confirming that forecast, are reported. In most cases, we omit stocks that have been bumped up or down in rank by the dynamism of the ranking system.

STOCKS MOVING UP IN TIMELINESS RANK

Stock Name	Old Rank	New Rank	Reason for Change	Earnings Est. 12 months to 3-31-27
Cheniere Energy Inc.	2	1	Dynamism of the ranking system.	
DocuSign, Inc.	2	1	Dynamism of the ranking system.	
HP Inc.	2	1	Dynamism of the ranking system.	
Hewlett Packard Ent.	2	1	Dynamism of the ranking system.	
McKesson Corp.	2	1	Dynamism of the ranking system.	
Okta, Inc.	2	1	Dynamism of the ranking system.	
SEI Investments	2	1	Dynamism of the ranking system.	
Workday, Inc.	2	1	Dynamism of the ranking system.	

STOCKS MOVING DOWN IN TIMELINESS RANK

Stock Name	Old Rank	New Rank	Reason for Change	Earnings Est. 12 months to 3-31-27
ASML Holding N.V.	1	2	Dynamism of the ranking system.	
Applied Ind'l Techn.	1	2	Dynamism of the ranking system.	
ArcBest Corp.	1	2	Dynamism of the ranking system.	
Crocs, Inc.	1	2	Dynamism of the ranking system.	
Illinois Tool Works	1	2	Dynamism of the ranking system.	
Petroleo Brasileiro ADR	1	2	Dynamism of the ranking system.	
Proto Labs, Inc.	1	2	Dynamism of the ranking system.	
Ryder System	1	2	Dynamism of the ranking system.

Officers, directors, or employees of Value Line, Inc. and its affiliates and subsidiaries ("VLI") , and EULAV Asset Management ("EULAV"), may hold stocks that are reviewed or recommended in this publication. EULAV also manages investment companies and other accounts that use the rankings and recommendations in this publication as part of their investment strategies. These accounts, as well as the officers, directors, employees of VLI, may dispose of a security notwithstanding the fact that The Value Line Investment Survey (the "Survey") ranks the issuer favorably; conversely, such accounts or persons may purchase or hold a security that is poorly ranked by the Survey. Some of the investment companies managed by EULAV only hold securities with a specified minimum Timeliness Rank by the Survey and dispose of those positions when the Timeliness Rank declines or is suspended. Subscribers to the Survey and its related publications as well as some institutional customers of VLI will have access to all updated Ranks in the Survey by 8:00 AM each Monday. At the same time, portfolio managers for EULAV will receive reports providing Timeliness Ranking information. EULAV's portfolio managers also may have access to publicly available information that may ultimately result in or influence a change in rankings or recommendations, such as earnings releases, changes in market value or disclosure of corporate transactions. The investment companies or accounts may trade upon such information prior to a change in ranking. While the rankings in the Survey are intended to be predictive of future relative performance of an issuer's securities, the Survey is not intended to constitute a recommendation of any specific security. Any investment decision with respect to any issuer covered by the Survey should be made as part of a diversified portfolio of equity securities and in light of an investor's particular investment objectives and circumstances. ★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

Volume LXXXII, Number 6, Issue 6. The Value Line Investment Survey (ISSN 0042-2401) is published weekly by Value Line Publishing LLC, 551 Fifth Avenue New York, NY 10176 and is accorded expeditious treatment prescribed for newspapers. Subscription rate for one year in the United States and US possessions is $598. Foreign rates upon request. Periodical Postage Paid at New York, NY and additional mailing offices.

(•) All data adjusted for announced stock split or stock dividend. See back page of Ratings & Reports.
◆ New figure this week.
(b) Canadian Dollars.
(d) Deficit.
(f) The estimate may reflect a probable increase or decrease. If a dividend boost or cut is possible but not probable, two figures are shown, the first is the more likely.
(g) Dividends subject to foreign withholding tax for U.S. residents.
(h) Est'd Earnings & Est'd Dividends after conversion to U.S. dollars at Value Line estimated translation rate.
(j) All Index data expressed in hundreds.
(p) 6 months (q) Asset Value
N=Negative figure NA=Not available NMF=No meaningful figure

★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

(•) All data adjusted for announced stock split or stock dividend. See back page of Ratings & Reports.
◆ New figure this week.
(b) Canadian Dollars.
(d) Deficit.
(f) The estimate may reflect a probable increase or decrease. If a dividend boost or cut is possible but not probable, two figures are shown, the first is the more likely.
(g) Dividends subject to foreign withholding tax for U.S. residents.
(h) Est'd Earnings & Est'd Dividends after conversion to U.S. dollars at Value Line estimated translation rate.
(j) All Index data expressed in hundreds.
(p) 6 months (q) Asset Value
N=Negative figure NA=Not available NMF=No meaningful figure

★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

(•) All data adjusted for announced stock split or stock dividend. See back page of Ratings & Reports.
◆ New figure this week.
(b) Canadian Dollars.
(d) Deficit.
(f) The estimate may reflect a probable increase or decrease. If a dividend boost or cut is possible but not probable, two figures are shown, the first is the more likely.
(g) Dividends subject to foreign withholding tax for U.S. residents.
(h) Est'd Earnings & Est'd Dividends after conversion to U.S. dollars at Value Line estimated translation rate.
(j) All Index data expressed in hundreds.
(p) 6 months (q) Asset Value
N=Negative figure NA=Not available NMF=No meaningful figure

★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

(•) All data adjusted for announced stock split or stock dividend. See back page of Ratings & Reports.
◆ New figure this week.
(b) Canadian Dollars.
(d) Deficit.
(f) The estimate may reflect a probable increase or decrease. If a dividend boost or cut is possible but not probable, two figures are shown, the first is the more likely.
(g) Dividends subject to foreign withholding tax for U.S. residents.
(h) Est'd Earnings & Est'd Dividends after conversion to U.S. dollars at Value Line estimated translation rate.
(j) All Index data expressed in hundreds.
(p) 6 months (q) Asset Value
N=Negative figure NA=Not available NMF=No meaningful figure

★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

(•) All data adjusted for announced stock split or stock dividend. See back page of Ratings & Reports.
◆ New figure this week.
(b) Canadian Dollars.
(d) Deficit.
(f) The estimate may reflect a probable increase or decrease. If a dividend boost or cut is possible but not probable, two figures are shown, the first is the more likely.
(g) Dividends subject to foreign withholding tax for U.S. residents.
(h) Est'd Earnings & Est'd Dividends after conversion to U.S. dollars at Value Line estimated translation rate.
(j) All Index data expressed in hundreds.
(p) 6 months (q) Asset Value
N=Negative figure NA=Not available NMF=No meaningful figure

★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

(•) All data adjusted for announced stock split or stock dividend. See back page of Ratings & Reports.
◆ New figure this week.
(b) Canadian Dollars.
(d) Deficit.
(f) The estimate may reflect a probable increase or decrease. If a dividend boost or cut is possible but not probable, two figures are shown, the first is the more likely.
(g) Dividends subject to foreign withholding tax for U.S. residents.
(h) Est'd Earnings & Est'd Dividends after conversion to U.S. dollars at Value Line estimated translation rate.
(j) All Index data expressed in hundreds.
(p) 6 months (q) Asset Value
N=Negative figure NA=Not available NMF=No meaningful figure

★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

***Based on the Timeliness™ ranks of the stocks in the industry**

Noteworthy Rank Changes

Listed below are some of the stocks whose Timeliness ranks have changed this week. We include mostly rank changes caused by fundamentals such as new earnings reports. Even when a significant change in earnings momentum has been forecast, the stock's rank will not be affected until the actual results, confirming that forecast, are reported. In most cases, we omit stocks that have been bumped up or down in rank by the dynamism of the ranking system.

STOCKS MOVING UP IN TIMELINESS RANK

Stock Name	Old Rank	New Rank	Reason for Change	Earnings Est. 12 months to 3-31-27
Abercrombie & Fitch	2	1	Dynamism of the ranking system.	
AppFolio, Inc.	2	1	Dynamism of the ranking system.	
ARAMARK Holdings	2	1	Dynamism of the ranking system.	
Booz Allen Hamilton	2	1	Dynamism of the ranking system.	
ExlService Hldgs Inc	2	1	Dynamism of the ranking system.	
Gen Digital Inc.	2	1	Dynamism of the ranking system.	
Genpact Limited	2	1	Dynamism of the ranking system.	
Illumina Inc.	2	1	Dynamism of the ranking system.	
Ulta Beauty	2	1	Dynamism of the ranking system.	
Veeva Systems	2	1	Dynamism of the ranking system.	

STOCKS MOVING DOWN IN TIMELINESS RANK

Stock Name	Old Rank	New Rank	Reason for Change	Earnings Est. 12 months to 3-31-27
Casey's Gen'l Stores	1	2	Dynamism of the ranking system.	
Charter Communic.	1	2	Dynamism of the ranking system.	
Digi Int'l	1	2	Dynamism of the ranking system.	
frontdoor, inc.	1	2	Dynamism of the ranking system.	
Murphy USA Inc.	1	2	Dynamism of the ranking system.	
Sterling Infrastruc.	1	2	Dynamism of the ranking system.	
Toll Brothers	1	2	Dynamism of the ranking system.	
Tutor Perini	1	2	Dynamism of the ranking system.

Officers, directors, or employees of Value Line, Inc. and its affiliates and subsidiaries ("VLI") , and EULAV Asset Management ("EULAV"), may hold stocks that are reviewed or recommended in this publication. EULAV also manages investment companies and other accounts that use the rankings and recommendations in this publication as part of their investment strategies. These accounts, as well as the officers, directors, employees of VLI, may dispose of a security notwithstanding the fact that The Value Line Investment Survey (the "Survey") ranks the issuer favorably; conversely, such accounts or persons may purchase or hold a security that is poorly ranked by the Survey. Some of the investment companies managed by EULAV only hold securities with a specified minimum Timeliness Rank by the Survey and dispose of those positions when the Timeliness Rank declines or is suspended. Subscribers to the Survey and its related publications as well as some institutional customers of VLI will have access to all updated Ranks in the Survey by 8:00 AM each Monday. At the same time, portfolio managers for EULAV will receive reports providing Timeliness Ranking information. EULAV's portfolio managers also may have access to publicly available information that may ultimately result in or influence a change in rankings or recommendations, such as earnings releases, changes in market value or disclosure of corporate transactions. The investment companies or accounts may trade upon such information prior to a change in ranking. While the rankings in the Survey are intended to be predictive of future relative performance of an issuer's securities, the Survey is not intended to constitute a recommendation of any specific security. Any investment decision with respect to any issuer covered by the Survey should be made as part of a diversified portfolio of equity securities and in light of an investor's particular investment objectives and circumstances. ★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

Volume LXXXII, Number 5, Issue 5. The Value Line Investment Survey (ISSN 0042-2401) is published weekly by Value Line Publishing LLC, 551 Fifth Avenue New York, NY 10176 and is accorded expeditious treatment prescribed for newspapers. Subscription rate for one year in the United States and US possessions is $598. Foreign rates upon request. Periodical Postage Paid at New York, NY and additional mailing offices.

★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

(•) All data adjusted for announced stock split or stock dividend. See back page of Ratings & Reports.
◆ New figure this week.
(b) Canadian Dollars.
(d) Deficit.
(f) The estimate may reflect a probable increase or decrease. If a dividend boost or cut is possible but not probable, two figures are shown, the first is the more likely.
(g) Dividends subject to foreign withholding tax for U.S. residents.
(h) Est'd Earnings & Est'd Dividends after conversion to U.S. dollars at Value Line estimated translation rate.
(j) All Index data expressed in hundreds.
(p) 6 months (q) Asset Value

★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

(•) All data adjusted for announced stock split or stock dividend. See back page of Ratings & Reports.
◆ New figure this week.
(b) Canadian Dollars.
(d) Deficit.
(f) The estimate may reflect a probable increase or decrease. If a dividend boost or cut is possible but not probable, two figures are shown, the first is the more likely.
(g) Dividends subject to foreign withholding tax for U.S. residents.
(h) Est'd Earnings & Est'd Dividends after conversion to U.S. dollars at Value Line estimated translation rate.
(j) All Index data expressed in hundreds.
(p) 6 months (q) Asset Value
N=Negative figure NA=Not available NMF=No meaningful figure

★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

(•) All data adjusted for announced stock split or stock dividend. See back page of Ratings & Reports.
◆ New figure this week.
(b) Canadian Dollars.
(d) Deficit.
(f) The estimate may reflect a probable increase or decrease. If a dividend boost or cut is possible but not probable, two figures are shown, the first is the more likely.
(g) Dividends subject to foreign withholding tax for U.S. residents.
(h) Est'd Earnings & Est'd Dividends after conversion to U.S. dollars at Value Line estimated translation rate.
(j) All Index data expressed in hundreds.
(p) 6 months (q) Asset Value
N=Negative figure NA=Not available NMF=No meaningful figure

★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

(•) All data adjusted for announced stock split or stock dividend. See back page of Ratings & Reports.
◆ New figure this week.
(b) Canadian Dollars.
(d) Deficit.
(f) The estimate may reflect a probable increase or decrease. If a dividend boost or cut is possible but not probable, two figures are shown, the first is the more likely.
(g) Dividends subject to foreign withholding tax for U.S. residents.
(h) Est'd Earnings & Est'd Dividends after conversion to U.S. dollars at Value Line estimated translation rate.
(j) All Index data expressed in hundreds.
(p) 6 months (q) Asset Value
N=Negative figure NA=Not available NMF=No meaningful figure

★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

(•) All data adjusted for announced stock split or stock dividend. See back page of Ratings & Reports.
◆ New figure this week.
(b) Canadian Dollars.
(d) Deficit.
(f) The estimate may reflect a probable increase or decrease. If a dividend boost or cut is possible but not probable, two figures are shown, the first is the more likely.
(g) Dividends subject to foreign withholding tax for U.S. residents.
(h) Est'd Earnings & Est'd Dividends after conversion to U.S. dollars at Value Line estimated translation rate.
(j) All Index data expressed in hundreds.
(p) 6 months (q) Asset Value
N=Negative figure NA=Not available NMF=No meaningful figure

★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

★★ Supplementary Report in this week's issue.
▲ Arrow indicates the direction of a change. When it appears with the Latest Dividend, the arrow signals that a change in the regular payment rate has occurred in the latest quarter.

For Timeliness, 3-5 year Target Price Range, or Estimated Earnings 12 months to 3-31-27, the arrow indicates a change since the preceding week. When a diamond ◆ (indicating a new figure) appears alongside the latest quarterly earnings results, the rank change probably was primarily caused by the earnings report. In other cases, the change is due to the dynamics of the ranking system and could simply be the result of the improvement or weakening of other stocks.

***Based on the Timeliness™ ranks of the stocks in the industry**

Noteworthy Rank Changes

Listed below are some of the stocks whose Timeliness ranks have changed this week. We include mostly rank changes caused by fundamentals such as new earnings reports. Even when a significant change in earnings momentum has been forecast, the stock's rank will not be affected until the actual results, confirming that forecast, are reported. In most cases, we omit stocks that have been bumped up or down in rank by the dynamism of the ranking system.

STOCKS MOVING UP IN TIMELINESS RANK

Stock Name	Old Rank	New Rank	Reason for Change	Earnings Est. 12 months to 3-31-27
Avantor, Inc.	2	1	Dynamism of the ranking system.	
Bloomin' Brands	2	1	Dynamism of the ranking system.	
Brink's (The) Co.	2	1	Dynamism of the ranking system.	
Cardinal Health	2	1	Dynamism of the ranking system.	
ConocoPhillips	2	1	Dynamism of the ranking system.	
Lilly (Eli)	2	1	Dynamism of the ranking system.	
Marvell Technology	2	1	Dynamism of the ranking system.	
Qualys, Inc.	2	1	Dynamism of the ranking system.	
Roper Tech.	2	1	Dynamism of the ranking system.	

STOCKS MOVING DOWN IN TIMELINESS RANK

Stock Name	Old Rank	New Rank	Reason for Change	Earnings Est. 12 months to 3-31-27
Chefs' Warehouse	1	2	Dynamism of the ranking system.	
Chubb Ltd.	1	2	Dynamism of the ranking system.	
Dropbox, Inc.	1	2	Dynamism of the ranking system.	
Globe Life Inc.	1	2	Dynamism of the ranking system.	
Hubbell Inc.	1	2	Dynamism of the ranking system.	
Life Time Group	1	2	Dynamism of the ranking system.	
Selective Ins. Group	1	2	Dynamism of the ranking system.	
Signet Jewelers Ltd.	1	2	Dynamism of the ranking system.	
Verisk Analytics	1	2	Dynamism of the ranking system.

Officers, directors, or employees of Value Line, Inc. and its affiliates and subsidiaries ("VLI") , and EULAV Asset Management ("EULAV"), may hold stocks that are reviewed or recommended in this publication. EULAV also manages investment companies and other accounts that use the rankings and recommendations in this publication as part of their investment strategies. These accounts, as well as the officers, directors, employees of VLI, may dispose of a security notwithstanding the fact that The Value Line Investment Survey (the "Survey") ranks the issuer favorably; conversely, such accounts or persons may purchase or hold a security that is poorly ranked by the Survey. Some of the investment companies managed by EULAV only hold securities with a specified minimum Timeliness Rank by the Survey and dispose of those positions when the Timeliness Rank declines or is suspended. Subscribers to the Survey and its related publications as well as some institutional customers of VLI will have access to all updated Ranks in the Survey by 8:00 AM each Monday. At the same time, portfolio managers for EULAV will receive reports providing Timeliness Ranking information. EULAV's portfolio managers also may have access to publicly available information that may ultimately result in or influence a change in rankings or recommendations, such as earnings releases, changes in market value or disclosure of corporate transactions. The investment companies or accounts may trade upon such information prior to a change in ranking. While the rankings in the Survey are intended to be predictive of future relative performance of an issuer's securities, the Survey is not intended to constitute a recommendation of any specific security. Any investment decision with respect to any issuer covered by the Survey should be made as part of a diversified portfolio of equity securities and in light of an investor's particular investment objectives and circumstances.
