Date Filed: June 29, 2026

Witness: Baten, Cherna M
Request from: Public Utilities Regulatory Authority

Question:

Provide the number of days broken down by month, between November 1, 2024, and May 1, 2026 (or the most recent date for which there is available data), of severe heat and cold conditions.

Response:

The Company interprets the question to request:

- "severe cold" days - when temperatures were below 32 degrees Fahrenheit for an entire 24-hour period and;
- "severe heat" days - when the National Weather Service issued an Extreme Heat Warning for at least one local area in our service territory.

With this context, the Company provides the following number of extreme heat and cold days during the periods requested:

Year	Month	Severe Cold	Severe Heat
