80435173	Wells 38-Replace Failing Batteries	We would like to create an annual to replace the batteries at Wells 38 when we go to perform the major maintenance next year. The batteries are marine 12v batteries. Last time replaced was in 2018. And we have corrosion and leakage at the terminals. Approx. $300 each. We would require 6 of them. I have attached the quote here for your review as well. This would be planned distribution. We would require 16 man hours and the price of the batteries. Batteries will be replaced with similar units. $6,385.00 Greg Smuk	Benefits-B01	107010	0.8

		2EA - BW - 400 Park Road, Waterbury Electrical Work TOTAL: $18,153 this is site electrical work at our new show up site in Watertown. We had to get a new electric service drop and a bunch of wiring done / installation of outlets for hybrid bucket truck charging / engine block heater outlets (winter) as well as a meter socket/disconnect for our show up site job trailer. This infrastructure was just installed at a site we leased at 400 Park Road in Watertown. We have a 3 year lease with options to renew for an additional 3 years.

		This work order was created to accept the charges for the Berlin Training Substation project to continue to modernize / upgrade for increased hands-on training opportunities for field workers and supervisors in a controlled enviroment that is not currently available. This training will simulate real-life experiences without the risk of energized equipment at primary or transmission voltages. The costs will be distributed per below: CT = 85% WMA = 15%

		Eversource Open Sky data network support critical Distribution Automation applications in CT. These radios have now been manufacturer discontinued. In order to have mobile radios to continue supporting Distribution Automation in CT, a last time buy of radios is needed. A budget of $1.2M was set aside for this purpose as a short-term mitigation to keep the system in operation till a new replacement system is identified as part of the Field Area Network Strategy.
