		2EA - BW - 400 Park Road, Waterbury Electrical Work TOTAL: $18,153 this is site electrical work at our new show up site in Watertown. We had to get a new electric service drop and a bunch of wiring done / installation of outlets for hybrid bucket truck charging / engine block heater outlets (winter) as well as a meter socket/disconnect for our show up site job trailer. This infrastructure was just installed at a site we leased at 400 Park Road in Watertown. We have a 3 year lease with options to renew for an additional 3 years.

		Eversource Open Sky data network support critical Distribution Automation applications in CT. These radios have now been manufacturer discontinued. In order to have mobile radios to continue supporting Distribution Automation in CT, a last time buy of radios is needed. A budget of $1.2M was set aside for this purpose as a short-term mitigation to keep the system in operation till a new replacement system is identified as part of the Field Area Network Strategy.
