		Torrington - Hybrid Bucket Truck Receptacles			
F2511087	Hybrid Bucket Truck Receptacles	With the arrival of new Hybrid Bucket Trucks, installation of eighteen (18) 20 amp -120 volt receptacles - 2 receptacles per parking space. Each parking space will accommodate for the truck block heater and lift battery charger. Included as part of this project is the installation of a new 100/3 panel, update of both the arc flash rating and the one-line diagram. This will complete the entire loading dock parking spaces to include two (2) receptacles per space.	Fees + Payment - FP0	108030	0.05

80435173	Wells 38-Replace Failing Batteries	We would like to create an annual to replace the batteries at Wells 38 when we go to perform the major maintenance next year. The batteries are marine 12v batteries. Last time replaced was in 2018. And we have corrosion and leakage at the terminals. Approx. $300 each. We would require 6 of them. I have attached the quote here for your review as well. This would be planned distribution. We would require 16 man hours and the price of the batteries. Batteries will be replaced with similar units. $6,385.00 Greg Smuk	Fees + Payment - FP0	107010	1

GXC24S40	2EA - BW - 400 Park Road, Waterbury	2EA - BW - 400 Park Road, Waterbury Electrical Work TOTAL: $18,153 this is site electrical work at our new show up site in Watertown. We had to get a new electric service drop and a bunch of wiring done / installation of outlets for hybrid bucket truck charging / engine block heater outlets (winter) as well as a meter socket/disconnect for our show up site job trailer. This infrastructure was just installed at a site we leased at 400 Park Road in Watertown. We have a 3 year lease with options to renew for an additional 3 years.	Fees + Payment - FP0	107010	1

GXT25047	Phase ID Model 6000	Phase ID model 6000 will be used to determine phasing on distribution circuits throughout Connecticut. Phase identification is required to determine what phase loads are connected to in the field. This information will be utilized to perform load balancing within the distribution circuits. Balanced loads will help prevent circuit overloads, equipment damage, low voltage and stray voltage.	Fees + Payment - FP0	107010	1
GXT25050	Mobile Transformer Testing	RCP2 19-Pin Controller Adapter are needed to test commission relay settings for reclosers on mobile transformers with 19 pin cables using the Omicron Arco 400 test set.	Fees + Payment - FP0	107010	1

		Eversource Open Sky data network support critical Distribution Automation applications in CT. These radios have now been manufacturer discontinued. In order to have mobile radios to continue supporting Distribution Automation in CT, a last time buy of radios is needed. A budget of $1.2M was set aside for this purpose as a short-term mitigation to keep the system in operation till a new replacement system is identified as part of the Field Area Network Strategy.
