80435173	Wells 38-Replace Failing Batteries	We would like to create an annual to replace the batteries at Wells 38 when we go to perform the major maintenance next year. The batteries are marine 12v batteries. Last time replaced was in 2018. And we have corrosion and leakage at the terminals. Approx. $300 each. We would require 6 of them. I have attached the quote here for your review as well. This would be planned distribution. We would require 16 man hours and the price of the batteries. Batteries will be replaced with similar units. $6,385.00 Greg Smuk	Joint Line Billing-JL0	107010	0.8

We had to get a new electric service drop and a bunch of wiring done / installation of outlets for hybrid bucket truck charging / engine block heater outlets (winter) as well as a meter socket/disconnect for our show up site job trailer. This infrastructure was just installed at a site we leased at 400 Park Road in Watertown. We have a 3 year lease with options to renew for an additional 3 years.	Joint Line Billing-JL0	107010	1
