Re: Docket No. 14-05-06, Notice from CL&P dba Eversource Energy to PURA to Pre-Stage Resources – Notice of Pre-Staging of Resources

Dear Mr. Gaudiosi:

The Connecticut Light and Power Company d/b/a Eversource Energy (the "Company") is actively monitoring weather forecasts and preparing for potential system damage and associated customer outages due to an oncoming weather system. Based on the current weather forecasts, a strong low-pressure system is forecast to move across New England beginning the evening of Tuesday, January 9, 2024, with continuing impact for the region through Wednesday, January 10, 2024. This weather system is forecast to bring maximum hazardous wind gusts in the range of 55-60 mph and heavy precipitation for our Connecticut service territory.

Given the demand for resources in the region, we are securing additional resources in preparation for the anticipated severe weather impact. The Company plans to declare an Emergency Response Plan ("ERP") Event Level 4, beginning at 6 p.m. on Tuesday, January 9, 2024.[1]

The Company is monitoring weather forecasts closely and will make adjustments to the Event Level and resource plan, as appropriate. Further details on the assignment of resources for this event will be provided in Preparedness Briefings issued to the Public Utilities Regulatory Authority and other stakeholders.

A representative of the Company's Regulatory Affairs Department communicated this decision to lean-in to PURA's designated representative on Monday, January 8, 2024. This notice is provided to PURA under the protocol for pre-staging resources established in Docket No. 14-05-06. If you have any questions, please feel free to contact me via e-mail (joseph.godwin@eversource.com) or on my cell phone at (985) 285-9976.

Sincerely,
Joseph H. Godwin
Joseph H. Godwin
Manager-Emergency Preparedness
On Behalf of CL&P dba Eversource Energy

[1] Pursuant to the ERP on file with PURA, an "Event Level 4" means the event is estimated to have the potential to cause outages for up to 380,000 customers; system damage up to 10,000 trouble spots; and a multi-day restoration duration of 2 to 6 days.

Re: Docket No. 14-05-06, Notice from CL&P dba Eversource Energy to PURA to Pre-Stage Resources – Notice of Pre-Staging of Resources

Dear Mr. Gaudiosi:

The Connecticut Light and Power Company d/b/a Eversource Energy (the "Company") is actively monitoring weather forecasts and preparing for potential system damage and associated customer outages due to an oncoming weather system. Based on the current weather forecasts, a strong low-pressure system is forecast to move across New England beginning the evening of Friday, January 12, 2024, with continuing impact for the region through Sunday, January 14, 2024. This weather system is forecast to bring maximum hazardous wind gusts in the range of 50-60 mph and heavy precipitation for our Connecticut service territory.

Given the demand for resources in the region, we are securing additional resources in preparation for the anticipated severe weather impact. The Company plans to declare an Emergency Response Plan ("ERP") Event Level 5, beginning at 6 p.m. on Friday, January 12, 2024.[1]

The Company is monitoring weather forecasts closely and will make adjustments to the Event Level and resource plan, as appropriate. Further details on the assignment of resources for this event will be provided in Preparedness Briefings issued to the Public Utilities Regulatory Authority and other stakeholders.

A representative of the Company's Regulatory Affairs Department communicated this decision to lean-in to PURA's designated representative on Thursday, January 11, 2024. This notice is provided to PURA under the protocol for pre-staging resources established in Docket No. 14-05-06. If you have any questions, please feel free to contact me via e-mail (joseph.godwin@eversource.com) or on my cell phone at (985) 285-9976.

Re: Docket No. 14-05-06, Notice from CL&P dba Eversource Energy to PURA to Pre-Stage Resources – Notice of Pre-Staging of Resources

Dear Mr. Gaudiosi:

The Connecticut Light and Power Company d/b/a Eversource Energy (the "Company") is actively monitoring weather forecasts and preparing for potential system damage and associated customer outages due to an oncoming weather system. Based on the current weather forecasts, a significant winter storm is forecast to move across New England beginning the morning of Tuesday, February 13, 2024, with continuing impact for the region through the evening. This weather system is forecast to bring accumulating heavy wet snow and maximum hazardous wind gusts in the range of 30-40 mph for our Connecticut service territory.

Given the demand for resources in the region, we are securing additional resources in preparation for the anticipated severe weather impact. The Company plans to declare an Emergency Response Plan ("ERP") Event Level 5, beginning at 11 p.m. on Monday, February 12, 2024.[1]

The Company is monitoring weather forecasts closely and will make adjustments to the Event Level and resource plan, as appropriate. Further details on the assignment of resources for this event will be provided in Preparedness Briefings issued to the Public Utilities Regulatory Authority and other stakeholders.

A representative of the Company's Regulatory Affairs Department communicated this decision to lean-in to PURA's designated representative on Sunday, February 11, 2024. This notice is provided to PURA under the protocol for pre-staging resources established in Docket No. 14-05-06. Re: Docket No. 14-05-06, Notice from CL&P dba Eversource Energy to PURA to Pre-Stage Resources – Notice of Pre-Staging of Resources

Dear Mr. Gaudiosi:

The Connecticut Light and Power Company d/b/a Eversource Energy (the "Company") has been actively monitoring weather forecasts and preparing for potential system damage and associated customer outages due to a strong low-pressure system. Based on forecasts and current weather conditions, a strong low-pressure system is moving across Connecticut with continuing impact for the region through Monday, February 17, 2025. This weather system is producing snow, freezing rain, ice and elevated sustained winds and maximum hazardous wind gusts in the range of 45-55 mph for our Connecticut service territory.

Given the demand for resources in the region, we are securing external resources in preparation for the anticipated severe weather impact. The Company plans to declare an Emergency Response Plan ("ERP") Event Level 5, beginning at 6 a.m. on Monday, February 17, 2025.[1]

The Company is monitoring weather forecasts closely and will make adjustments to the Event Level and resource plan, as appropriate. Re: Docket No. 14-05-06, Notice from CL&P dba Eversource Energy to PURA to Pre-Stage Resources – Notice of Pre-Staging of Resources

Dear Mr. Gaudiosi:

The Connecticut Light and Power Company d/b/a Eversource Energy (the "Company") is actively monitoring weather forecasts and preparing for potential system damage and associated customer outages due to an oncoming weather system. Based on the current weather forecasts, a significant cold front is forecast to move across New England beginning Wednesday, February 28, 2024, with continuing impact for the region through Thursday, February 29, 2024. This weather system is forecast to bring continuous widespread rainfall, rapidly falling temperatures, elevated sustained winds and maximum hazardous wind gusts in the range of 40-55 mph for our Connecticut service territory.

Given the demand for resources in the region, we are securing additional resources in preparation for the anticipated severe weather impact. The Company plans to declare an Emergency Response Plan ("ERP") Event Level 5, beginning at 4 p.m. on Wednesday, February 28, 2024.[1]

The Company is monitoring weather forecasts closely and will make adjustments to the Event Level and resource plan, as appropriate. Further details on the assignment of resources for this event will be provided in Preparedness Briefings issued to the Public Utilities Regulatory Authority and other stakeholders.

Re: Docket No. 14-05-06, Notice from CL&P dba Eversource Energy to PURA to Pre-Stage Resources – Notice of Pre-Staging of Resources

Dear Mr. Gaudiosi:

The Connecticut Light and Power Company d/b/a Eversource Energy (the "Company") is actively monitoring weather forecasts and preparing for potential system damage and associated customer outages due to an oncoming weather system. Based on the current weather forecasts, a significant late season nor'easter is forecast to move across New England beginning Wednesday, April 03, 2024, with continuing impact for the region through Thursday, April 04, 2024. This weather system is forecast to bring heavy widespread rainfall, wintery mixed precipitation, elevated sustained winds and maximum hazardous wind gusts in the range of 55-65 mph for our Connecticut service territory.

Given the demand for resources in the region, we are securing additional resources in preparation for the anticipated severe weather impact. The Company plans to declare an Emergency Response Plan ("ERP") Event Level 5, beginning at 6 p.m. on Wednesday, April 03, 2024.[1]

The Company is monitoring weather forecasts closely and will make adjustments to the Event Level and resource plan, as appropriate. Re: Docket No. 14-05-06, Notice from CL&P dba Eversource Energy to PURA to Pre-Stage Resources – Notice of Pre-Staging of Resources

Dear Mr. Gaudiosi:

The Connecticut Light and Power Company d/b/a Eversource Energy (the "Company") is actively monitoring weather forecasts and preparing for potential system damage and associated customer outages due to remnants from Tropical Storm Debby. Based on the current weather forecasts, tropical remnants are forecast to move across New England beginning Friday, August 9, 2024, with continuing impact for the region into Saturday, August 10, 2024. This weather system is forecast to bring heavy localized rainfall, thunderstorms, potential isolated tornadoes, elevated sustained winds and maximum hazardous wind gusts in the range of 30-45 mph for our Connecticut service territory.

Given the demand for resources in the region, we are securing external resources in preparation for the anticipated severe weather impact. The Company plans to declare an Emergency Response Plan ("ERP") Event Level 5, beginning at 6 p.m. on Friday, August 9, 2024.[1]

The Company is monitoring weather forecasts closely and will make adjustments to the Event Level and resource plan, as appropriate. Re: Docket No. 14-05-06, Notice from CL&P dba Eversource Energy to PURA to Pre-Stage Resources – Notice of Pre-Staging of Resources

Dear Mr. Gaudiosi:

The Connecticut Light and Power Company d/b/a Eversource Energy (the "Company") is actively monitoring weather forecasts and preparing for potential system damage and associated customer outages due to a strong low-pressure weather system approaching Connecticut. Based on the current weather forecasts, this weather system is expected to move across Connecticut beginning Wednesday, December 11, 2024, and to have a continuing impact in the region into Thursday, December 12, 2024. Forecasts indicate that this system is expected to bring thunderstorms, heavy rainfall, flooding, below average temperatures and elevated sustained winds and hazardous wind gusts in the range of 50-60 mph for our Connecticut service territory.

Given the demand for resources across the region, we are securing external resources in preparation for the anticipated severe weather impact. The Company plans to declare an Emergency Response Plan ("ERP") Event Level 5, beginning at 12 p.m. on Wednesday, December 11, 2024.[1]

The Company is also monitoring weather forecasts closely and will make adjustments to the Event Level and resource plan, as appropriate. Further details on the assignment of resources for this event will be provided in Preparedness Briefings issued to the Public Utilities Regulatory Authority and other stakeholders.

This notice is provided to PURA under the protocol for pre-staging resources established in Docket No. 14-05-06. If you have any questions, please feel free to contact me via e-mail (joseph.godwin@eversource.com) or on my cell phone at (985) 285-9976.
