Incorporated in 1995, Oklahoma City, OK-based OGE Energy Corp. provides electricity in Oklahoma and western Arkansas. It is the parent company of Oklahoma Gas and Electric Company ("OG&E"), which is the largest electric utility in Oklahoma and its franchised service territory is the Fort Smith, AR area. OG&E sold its retail natural gas business in 1928 and is no longer engaged in the natural gas distribution business. As of Dec. 31, 2025, the company's generation portfolio represents a balanced approach to generating electricity through a range of fuels —57% natural gas, 34% coal and 9% ...

At the center of everything we do is a strong commitment to independent research and sharing its profitable discoveries with investors. This dedication to giving investors a trading advantage led to the creation of our proven Zacks Rank stock-rating system. Since 1988 it has more than doubled the S&P 500 with an average gain of +23.86% per year. These returns cover a period from January 1, 1988 through September 7, 2026. Zacks Rank stock-rating system returns are computed monthly based on the beginning of the month and end of the month Zacks Rank stock prices plus any dividends received during that particular month. A simple, equally-weighted average return of all Zacks Rank stocks is calculated to determine the monthly return. The monthly returns are then compounded to arrive at the annual return. Only Zacks Rank stocks included in Zacks hypothetical portfolios at the beginning of each month are included in the return calculations. Zacks Ranks stocks can, and often do, change throughout the month. Certain Zacks Rank stocks for which no month-end price was available, pricing information was not collected, or for certain other reasons have been excluded from these return calculations. Zacks may license the Zacks Mutual Fund rating provided herein to third parties, including but not limited to the issuer.
