Enter Symbol

Founded in 1945, Atlanta, GA-based Southern Company is one of the largest utilities in the United States. The company deals with the generation, transmission and distribution of electricity. Following its merger with AGL Resources on July 1, 2016, Southern Company serves approximately nine million customers through its seven electric and natural gas distribution units.

The Southern Company operates as a large U.S. energy holding company with a diversified structure spanning regulated electric utilities, competitive wholesale generation, and natural gas distribution. It owns three vertically integrated electric utilities- Alabama Power, Georgia Power, and Mississippi ...

At the center of everything we do is a strong commitment to independent research and sharing its profitable discoveries with investors. This dedication to giving investors a trading advantage led to the creation of our proven Zacks Rank stock-rating system. Since 1988 it has more than doubled the S&P 500 with an average gain of +23.86% per year. These returns cover a period from January 1, 1988 through September 7, 2026. Zacks Rank stock-rating system returns are computed monthly based on the beginning of the month and end of the month Zacks Rank stock prices plus any dividends received during that particular month. A simple, equally-weighted average return of all Zacks Rank stocks is calculated to determine the monthly return. The monthly returns are then compounded to arrive at the annual return. Only Zacks Rank stocks included in Zacks hypothetical portfolios at the beginning of each month are included in the return calculations. Zacks Ranks stocks can, and often do, change throughout the month. Certain Zacks Rank stocks for which no month-end price was available, pricing information was not collected, or for certain other reasons have been excluded from these return calculations. Zacks may license the Zacks Mutual Fund rating provided herein to third parties, including but not limited to the issuer.
