Dear chairman, vice chairman and commissioners, In many cases you are the first and last line of defense between hard-working Connecticut residents and economic burden or relief. That is an incredible responsibility that I would imagine you don't take lightly. In my opinion, your responsibility lies with individual Connecticut taxpayers, small business owners, students, parents, children and seniors. The necessity to empower the people who ultimately ARE the economy of this state far outweighs the necessity of ANY other issue, short of severe disaster response. I am a constituent from the 41st district of Stonington and Groton, I am a multiple small business owner, I am a father, I am a property owner, I am a stakeholder in the economy of Connecticut and if I don't feel prioritized then I don't feel incentivized, and if I don't feel incentivized for all the hard work that I'm putting into the economy of the state, there are other states that would love to have a hard-working contributor, now multiply that thought which we are all having by a couple million people. We need relief, do not increase our economic and financial burden. Thank you

Thaler Hefel for the 41st
