3. Technical Justification

Background, Project Need/Justification, and Project Scope

a. Background

This annual captures the make-ready work necessary to accommodate the new attachment company.

b. Project Need

This project is needed to fund third party attachment applications.

c. Project Scope

This annual captures the make-ready work necessary to accommodate the new attachment company and typically involves moving/shifting existing facilities higher on the pole as needed to gain the National Electric Safety Code (NESC) required separation. A larger class pole may also need to be installed to accommodate heavier attachment loads.
