STATE OF CONNECTICUT
PUBLIC UTILITIES REGULATORY AUTHORITY

APPLICATION OF THE CONNECTICUT LIGHT AND POWER COMPANY d/b/a EVERSOURCE ENERGY TO AMEND ITS RATE SCHEDULES	:	**DOCKET NO. 26-05-10**
	:	**OCTOBER 7, 2026**

MOTION FOR EXTENSION OF TIME BY
THE CONNECTICUT LIGHT AND POWER COMPANY

The Connecticut Light and Power Company d/b/a Eversource Energy ("CL&P" or the "Company") respectfully requests that the Public Utilities Regulatory Authority ("PURA") grant an extension of time for the Company to submit a response to an interrogatory issued by PURA on September 25, 2026 ("PURA Set 8").

Specifically, the Company seeks a 3 business-day extension of time for UPA-055, thereby moving the response deadline to October 15, 2026.[1] The Company requests an extension of time for UPA-055 consistent with PURA's Notice of Proceeding issued on June 2, 2026 ("Notice"), which requires that any person requesting a procedural change or other PURA approval must file a motion. Notice at 2. Specifically, the Notice requires that motions for extension of time "shall be filed in advance of the prescribed deadline and should provide sufficient time for the Authority to consider timely objections and to rule on the motion." Id. The Company submits this Motion two business days in advance of the current due date for the Outstanding Interrogatories.

UPA-055 in PURA Set 8 was issued with an initial due date of October 9, 2026. PURA Set 8 encompasses a total of 75 individual interrogatories, plus sub-parts. UPA-055 seeks detailed information in five subparts related to relevant aspects of the Company's rate case application.

[1] October 12, 2026 is a state holiday.

Specifically, UPA-055 requests detailed information regarding the OM&A, PFP, and X-FACTOR in Exhibit CLP-PBR-2A CONFIDENTIAL, including requests for underlying methodology and calculations as well as citations to underlying source data.

At this time, the Company has determined it is unlikely it will be able to produce a complete and accurate response to UPA-055 within the current due date. UPA-055 requires additional time in order to prepare and verify a study-specific version of LEI's TFP model that retains all data, calculations, formulas, and links relevant to Exhibit CLP-PBR-2A and calculation functionality.

The Company bears the evidentiary burden to prove the elements of its rate proposals and therefore requires a fair and reasonable opportunity to collect and provide information sought by PURA and other parties in furtherance of that obligation. Although many aspects of a rate proceeding are reasonably anticipated by the Company, the Company cannot anticipate all permutations of information that may be requested; the timing of those requests; requests for specific documentation; or, requests that involve research of historical records, records of accounts, or even employee-related recollections. The Company must have a reasonable opportunity to respond with full and adequate information, consistent with the Company's due process rights to present its case.

The Company is working diligently and using best efforts to produce the response to UPA-055 on a timely basis. However, for the reasons stated in this Motion, the Company requires a three-day extension of time for UPA-055 in order to have a reasonable amount of time to research, prepare, review, and submit a complete and accurate response. Where feasible, the Company has filed responses to interrogatories in advance of due dates. For UPA-055, that requires a longer time to produce a complete and accurate response. The Company will continue to use best efforts

to submit its response as soon as possible. The Company has limited this extension request to only UPA-055 to ensure that it does not prejudice any other party.

WHEREFORE, the Company respectfully requests PURA grant a 3 business-day extension of time for UPA-055, thereby moving response deadline October 15, 2026.

Respectfully submitted,

THE CONNECTICUT LIGHT AND POWER COMPANY d/b/a EVERSOURCE ENERGY
