Hello,
I actually read the insert with my latest Eversource bill. I am not able to be present at any of the 4 hearings listed.
Here are my comments.
Regarding their rate review request for 7/1/2027:
Exactly how does the state justify to taxpayers and consumers a rate hike that includes 100% REDUCTION for electric vehicle charging? This is not okay. Rewarding those able to afford expensive electric vehicles and punishing the rest of us who just want to keep our lights on?!
18% is insane. Eversource fails to maintain their own poles and wiring, fails to remove obviously dangerous trees & wastes money not burying new lines but putting up more proven to be precarious, overhead lines. If the 18% was going to prevent outages, we would bite the bullet, but instead we don't dare live without a generator and the dangerous storage of gasoline. We lost Eversource service over a dozen times last year!
No, do not permit CEO Nolan, who took home over $13,000,000 last year, reward himself with our pain.
Thank you,
Ann & Stuart Arbeit
