Date Filed: October 21, 2026

Witness: Mark P. Baldwin, Clifford G. Williams, Leanne M. Landry and John G. Griffin
Request from: Office of Consumer Counsel

Question:

(MS24E) Please refer to the Response to OCC-628, Attachment 1. Please explain who created Attachment 1, when it was created, and why it was not included with the timesheet.

Response:

The engineering department creates the post storm circuit sweep repairs spreadsheet. These circuit sweeps began during the storm MS24E and continued for a few days after the storm to ensure they captured all of the storm damage that still needed attention. The contractors didn't necessarily include every location in their timesheet because they are given a work package from the local AWC and are in constant communication with the AWC for all completed locations.
