Casandra Dickson, being duly sworn, states:

Together, these documents are referred to herein as the "Confidential Information". The Confidential Information was submitted to PURA via email on September 23, 2026; September 24, 2026; and September 28, 2026. The last item responsive to OCC Set 15 was filed with PURA

on September 28, 2026. The last item responsive to OCC Set 17 was filed with PURA on September 28, 2026. The last item responsive to NECTA Set 1 was filed with PURA on September 29, 2026.

3. I submit this affidavit in support of a Motion for Protective Treatment by the Company, filed contemporaneously herewith, requesting a ruling from the Public Utilities Regulatory Authority ("PURA") that the Confidential Information be granted confidential treatment.

4. NECTA-0015, Attachment 2 CONFIDENTIAL, NECTA-018, Attachment 1 CONFIDENTIAL; NECTA-020, Attachment 3 CONFIDENTIAL; NECTA-021, Attachment 1 CONFIDENTIAL; NECTA-022, Attachments 1 and 2 CONFIDENTIAL; NECTA-025, Attachment 2 CONFIDENTIAL; NECTA-028, Attachments 1 and 2 CONFIDENTIAL; NECTA-044, Attachment 2 CONFIDENTIAL; and NECTA-045, Attachment 1 CONFIDENTIAL through NECTA-045, Attachment 3 CONFIDENTIAL, contain names of individual Eversource employees. Employee names and contact information should be protected from public disclosure. If the Company makes employee information public, there are both cybersecurity and physical security risks to individual Eversource employees. Making employee information public triggers an increased risk in phishing attacks as there is more information available about Eversource employees, centralized and publicly available. Additionally, there is a risk of personal harassment for individual employees.

5. NECTA-031, Attachment 2 CONFIDENTIAL, and NECTA-044, Attachment 2 CONFIDENTIAL, contain confidential vendor pricing and contract term information relating to the Company's third-party vendors. The pricing and negotiated terms from third parties and consultants are confidential and proprietary, and public disclosure of this data would adversely

impact the third parties and consultants in their pending and future negotiations to perform like services for other companies. The information on terms, fees, and rates contained in these attachments include proprietary, competitive, and commercially sensitive information that is non-public information. Public disclosure of this information would cause substantial harm to the Company and its vendor. Negotiated contract terms, pricing, and unit cost terms obtained by the Company from vendors are provided with an expectation of privacy and must be protected from public disclosure to ensure competitive market pricing.

6. OCC-591, Attachment 1 CONFIDENTIAL, OCC-594, Attachment 2 CONFIDENTIAL, OCC-599, Attachment 1 CONFIDENTIAL, and OCC-602, Attachments 1 and 2 CONFIDENTIAL, contain CEII of the Company's electric distribution system. The information provided in these exhibits includes substation, feeder and geographic location of constraints; substation load forecasts; forecast violation years; and 5-year historical peak load data. If disclosed, this information would create a system security risk and provide bad actors with detailed information relating to the Company's infrastructure and jeopardize operation of the Company's system.

7. OCC-729, Attachments 1 and 2 CONFIDENTIAL, are variations on Ms. Amparo Nieto's working models, identified as the Allocated Cost of Service Study ("ACOS"). These models were created, developed, and are maintained by Ms. Nieto. The models were created utilizing her proprietary knowledge and are protected as her intellectual property. Ms. Nieto informed CL&P that her know-how to perform the studies is highly proprietary and confidential and that her models have substantial commercial value and are proprietary to their consulting services. The commercial value of these models would be substantially reduced if they were made

publicly available to any parties including other consultants who compete with her to provide similar consulting services.

8. OCC-596, Attachment 4 CONFIDENTIAL, provides a confidential and proprietary report, which was received through paid subscriptions of Eversource Energy. Specifically, OCC-596, Attachment 4 CONFIDENTIAL, contains an entirely confidential, third-party report provided to the Company through subscription-based data services and platforms, which allow subscribing customers access to various proprietary documents, in exchange for a subscription fee. The Company has subscriptions to receive these reports. As part of its subscriptions, it is required the recipients maintain as confidential and proprietary all data, materials, and publications it receives from its subscriptions and not to release publicly the databases or publications or any of the material contained in them. All vendors operate under a business model, which is to provide data access and publications to persons that purchase subscriptions for a fee. This subscription business model is based on the expectation that only paying subscribers will have access to the databases and publications. If the report in OCC-596, Attachment 4 CONFIDENTIAL, was disclosed to the general public, it would violate the terms of the Company's subscriptions and harm these companies' business interests because individuals and entities that seek access to this information would be able to access it without having to pay for a subscription. This would harm the Company, and its providers, because it could limit future access to the subscription databases and financial publications due to potential competitive disadvantages that could arise, which would deprive the Company of information vital to conducting its business

9. To the best of my knowledge, reasonable efforts have been used to keep and maintain this information as confidential; and to the best of my knowledge this information has not been disclosed or released to the public.

10. I have been advised by the Companies' legal counsel that neither federal nor Connecticut statutes requires this confidential information to be filed in the public record.
