Project Authorization

ERM: _____

FP&A: _____

Executive Summary

This request is for the approval of $158k for the repairs/obsolescenceness of underground (UG) facilities in the Newtown area in 2021.

This work was identified as repairs to existing facilities requiring capital work, 9A billing, straight removal or replacement of obsolete units of property, or work performed at the request of another utility or municipality. The “AR” annual is not used for reconductoring or other work intended to correct reliability problems.

Technical Justification

Project Need Statement

It is necessary to perform this work to make repairs, remove/replace obsolete equipment, or perform work at the request of another utility or municipality.

Project Objectives

Repair, replace, or remove obsolete units of property that are on the system.

Project Scope

Repair, replace, or remove obsolete facilities that are on the system. This could contain the following: defective pole replacements, reinforcements, splice replacements, and other repairs. This also includes performing work at the request of another utility or municipality such as: work required for cable tv (CATV), assuming custody or abandoning interest in joint poles, or pole replacements for additional height. This is not used for reconductoring or other work to correct reliability problems.

Major Material

- Transformers
- Conduit
- Elbows
- Hot Line Clamps
- Rotten/Cracked Crossarms
- Floating Primarys
- Skinned Locations
- Messenger Guards
- Arrestsers
- Bent Pins
- Guy/Anchors
- Stirrups
- Splices
- Reinforcements
- Pole Replacement

Background / Justification

This project will address circuits and assets that need to be repaired, replaced, or removed for the betterement of the system.
