Date Filed: September 28, 2026

Witness: Christopher E. Colorio, Mark P. Baldwin, John G. Griffin and Leanne M. Landry
Request from: Office of Education, Outreach, and Enforcement

Question:

(STORM RESTORATION) Refer to Response to EOE-020, Att. 1. Explain if the Company can associate the individual outages (i.e., relevant rows within EOE-020, Att. 1) with the reported incremental costs. If costs can be associated, please supplement EOE-020, Att. 1, to include a column detailing the incremental costs for each row.

Response:

No. The Company does not track incremental storm restoration costs at the individual outage level identified in EOE-020, Attachment 1. Incremental storm costs are tracked and reported at the overall storm-event level in accordance with the Company's established accounting practices.

Storm restoration resources may respond to multiple outage locations throughout an event, and many incremental costs are incurred in support of the overall restoration effort rather than a specific individual outage. As a result, the Company does not maintain an outage-by-outage association of the incremental costs reported for the event.

Accordingly, the Company is unable to supplement EOE-020, Attachment 1, with incremental costs for each individual outage as requested.
