Date Filed: October 23, 2026

Witness: Warren R. Boutin and Andrew C. Belden
Request from: Department of Energy and Environmental Protection

Question:

(DERs) Has the Company conducted a retrospective analysis on the costs avoided by DERs against the costs incurred for integrating and supporting DERs? If so, please provide the results.

Response:

The Company has not conducted a retrospective analysis comparing costs avoided vs cost incurred. It must be noted that costs for system investments are incurred by the respective DER project and do not directly impact ratepayers.
