CAE-023 Q:

Sunrun Inc, Tesla, IGS, Connecticut Solar & Storage Association, GoodLeap, and Earthlight Technologies Comments, May 28, 2026, p. 14. Confirm that PowerClerk can currently receive an uploaded, signed customer disclosure form as part of RRES application, and that no customer disclosure form information must be entered as part of the RRES Program application.

CAE-023 A:

The United Illuminating Company ("UI") confirms that the PowerClerk platform currently allows installers or authorized agents to upload a signed Customer Disclosure Form as part of a Residential Renewable Energy Solutions ("RRES") application submission. UI further confirms that, while the signed Customer Disclosure Form may be uploaded as supporting documentation, developers are required to complete certain data fields within PowerClerk, some of which may contain information that also appears on the Customer Disclosure Form.
