OMS Data Comparison

The summary below compares trouble spot metrics between the previous and updated OMS data. The updated data reflects full-day pulls (12:00 AM to 11:59 PM).
Storms from previous filings that are not shown had no change in trouble spot metrics, as their original data already captured full days.

				Previous OMS Data		Updated OMS Data		
Time Period	**Storm**	**Start Date**	**Total Cost**	**Total Trouble Spots**	**Cost per Trouble Spot**	**Total Trouble Spots - Updated**	**Cost per Trouble Spot - Updated**	**Total Trouble Spots added**
June 2018 - December 2021	MS21L	10/26/2021	$ 11,361,926	2,566	4,428	3,168	3,586	602
