STATE OF CONNECTICUT

PUBLIC UTILITIES REGULATORY AUTHORITY

APPLICATION OF THE CONNECTICUT LIGHT AND POWER COMPANY d/b/a EVERSOURCE ENERGY TO AMEND ITS RATE SCHEDULES	:	**DOCKET NO. 26-05-10**
		OCTOBER 1, 2026

MOTION OF CONNECTICUT LIGHT AND POWER COMPANY D/B/A EVERSOURCE ENERGY FOR PROTECTIVE TREATMENT OF CONFIDENTIAL INFORMATION

The Connecticut Light and Power Company d/b/a Eversource Energy (the "Company" or "CL&P") hereby moves that the Public Utilities Regulatory Authority ("PURA") grant protective treatment as described in this motion to ensure that certain confidential information provided by the Company in the above-referenced proceeding is not subject to public disclosure. As outlined below, certain information provided by the Company in response to interrogatories issued by the Office of Consumer Counsel (the "OCC") on September 10, 2026 ("OCC Set 16") contain employee names, confidential customer information, Critical Energy Infrastructure Information ("CEII"), employee compensation data, and third-party pricing information and contract terms, which the Company does not disclose publicly.

In support of this motion, the Company states as follows:

1. The confidential information addressed in this motion includes information provided by the Company in the following attachments to interrogatories to OCC Set 16:

Interrogatory Number	Attachment Name	Redacted Filing Date	Confidential Filing Date
OCC-605	Attachment 1 CONFIDENTIAL	September 24, 2026	September 24, 2026
OCC-627	Attachment 1 CONFIDENTIAL	September 25, 2026	September 25, 2026
OCC-628	Attachment 1 CONFIDENTIAL	September 24, 2026	September 24, 2026
OCC-641	Attachment 1 CONFIDENTIAL	September 24, 2026	September 24, 2026
OCC-644	Attachment 1 CONFIDENTIAL Attachment 2 CONFIDENTIAL	September 28, 2026	September 28, 2026
OCC-653	Attachment 1 CONFIDENTIAL	September 24, 2026	September 24, 2026
OCC-656	Attachment 2 CONFIDENTIAL	September 25, 2026	September 25, 2026
OCC-682	Attachment 1 CONFIDENTIAL Attachment 2 CONFIDENTIAL	N/A – Filed as Confidential only*	September 28, 2026
OCC-692	Attachment 2 CONFIDENTIAL through Attachment 8 CONFIDENTIAL	September 29, 2026**	September 28, 2026
OCC-708	Attachment 1 CONFIDENTIAL	September 24, 2026	September 24, 2026

* The attachments to OCC-682 are being provided as confidential-only for the time being, but the Company anticipates undertaking a significant redaction project to provide these attachments into the public record. Together, these attachments contain approximately 300 or more pages that must be manually redacted to provide a public-facing version.
** The redacted attachments to OCC-692 were provided as attachments to OCC-692-SP01 on September 29, 2026.

Together, these documents are referred to herein as the "Confidential Information." The Confidential Information was submitted to PURA via email on September 24, 2026; September 25, 2026; and September 28, 2026. The last item responsive to OCC Set 16 was filed with PURA on September 28, 2026.

Employee Names

2. OCC-605, Attachment 1 CONFIDENTIAL, OCC-641, Attachment 1 CONFIDENTIAL, OCC-644, Attachments 1 and 2 CONFIDENTIAL, OCC-653, Attachment 1 CONFIDENTIAL, OCC-656, Attachment 2 CONFIDENTIAL, and OCC-682, Attachments 1 and 2 CONFIDENTIAL, contain names and employee usernames of individual Eversource employees.

Employee names and contact information should be protected from public disclosure. If the Company makes employee information public, there are both cybersecurity and physical security risks to individual Eversource employees. Making employee information public triggers an increased risk in phishing attacks as there is more information available about Eversource employees, centralized and publicly available. Additionally, there is a risk of personal harassment for individual employees.

3. This information should be protected from public disclosure pursuant to Item 6(f) of PURA's Revised Procedural Order Regarding Protected Materials, dated September 17, 2026 ("Revised Procedural Order") and Conn. Gen. Stat. § 1-210(b)(2) as the public disclosure would constitute an invasion of personal privacy. The public disclosure of the employee information may also result in a safety risk or a security risk to information technology systems, and therefore should be exempt from public disclosure under Conn. Gen. Stat. §§ 1-210(b)(19) and (20).

4. PURA has previously protected employee names from public disclosure. In Docket No. 24-01-03, PURA Annual Review of the Rate Adjustment Mechanisms of The Connecticut Light and Power Company, PURA approved CL&P's motion for reconsideration for protection to Eversource employee names and contact information ("Docket No. 24-01-03 Motion No. 28 Ruling"). PURA has also previously protected employee names from public disclosure in other instances. See, e.g., Docket No. 26-05-10, Application of Connecticut Light and Power Company d/b/a Eversource Energy to Amend its Rate Schedules (August 2, 2026 Ruling to Motion No. 10) (protecting employee names and contact information); Docket No. 21-08-24, Petition of William Tong, Attorney General for the State of Connecticut, and the Office of Consumer Counsel for an Investigation into Eversource Energy Regarding Gas Expansion Marketing (October 25, 2021 Ruling to Motion No. 7) (protecting employee names, addresses, and telephone numbers).

Customer Information

5. OCC-627, Attachment 1 CONFIDENTIAL, OCC-628, Attachment 1 CONFIDENTIAL, and OCC-644, Attachments 1 and 2 CONFIDENTIAL, provide specific customer identifying information. The Company does not disclose customer information, including customer names, addresses, and phone numbers of customers, to the public. Public disclosure of the Company's customer information would harm its customers' privacy interests.

6. OCC-627, Attachment 1 CONFIDENTIAL, OCC-628, Attachment 1 CONFIDENTIAL, and OCC-644, Attachments 1 and 2 CONFIDENTIAL, are confidential pursuant to Item 6(a) of PURA's Revised Procedural Order. In addition, PURA has previously protected from public disclosure account-specific information of utility customers. See, e.g., Docket No. 23-11-02, Application of Connecticut Natural Gas Corporation and The Southern Connecticut Gas Company to Amend their Rate Schedules (Dec. 6, 2023 Ruling on Motion No. 23) (protecting from public disclosure customer call recordings); Docket No. 22-08-08, Application of The United Illuminating Company to Amend its Rate Schedules (Oct. 6, 2022 Ruling on Motion No. 8) (protecting as confidential customer account specific information); Docket No. 20-08-03, PURA Investigation into Electric Distribution Companies' Preparation and Response to Tropical Strom Isaias (Dec. 7, 2020 Ruling on Motion No. 32) (protecting as confidential customer-specific information), (Dec. 8, 2020 Ruling on Motion No. 36) (protecting as confidential customer-specific information); Docket No. 17-05-42, Application of The Southern Connecticut Gas Company to Increase its Rates and Charges (Aug. 23, 2017 Ruling on Motion No. 9) (protecting as confidential customer and confidential contact information); Docket No. 11-02-01, Semi-Annual Reconciliation of The Connecticut Light and Power Company's and The United Illuminating Company's Federally Mandated Congestion Costs and Generation Services

Charge, April 11, 2011 DPUC Letter Order Approving Motion No. 6 (protecting from public disclosure customer names, account numbers, usage data and billing detail in Q-EL-12).

Third-party Pricing Information and Contract Terms

7. OCC-641, Attachment 1 CONFIDENTIAL, OCC-653, Attachment 1 CONFIDENTIAL, OCC-656, Attachment 2 CONFIDENTIAL, and OCC-682, Attachments 1 and 2 CONFIDENTIAL, contain confidential vendor pricing and contract term information relating to the Company's third-party vendors. The pricing and negotiated terms from third parties and consultants are confidential and proprietary, and public disclosure of this data would adversely impact the third parties and consultants in their pending and future negotiations to perform like services for other companies. The information on terms, fees, and rates contained in these attachments include proprietary, competitive, and commercially sensitive information that is non-public information. Public disclosure of this information would cause substantial harm to the Company and its vendor. Negotiated contract terms, pricing, and unit cost terms obtained by the Company from vendors are provided with an expectation of privacy and must be protected from public disclosure to ensure competitive market pricing.

8. Pursuant to Item 6(b) of PURA's Revised Procedural Order and Conn. Gen. Stat. § 1-210(b)(5)(A), the Confidential Information provided in response to OCC-641, Attachment 1 CONFIDENTIAL, OCC-653, Attachment 1 CONFIDENTIAL, OCC-656, Attachment 2 CONFIDENTIAL, and OCC-682, Attachments 1 and 2 CONFIDENTIAL, qualify as "trade secrets" for purposes of the Freedom of Information Act. Trade secrets include "formulas, patterns, compilations, programs, devices, methods, techniques, processes…cost data…that (1) derives independent economic value, actual or potential, from not being generally known to, and not being readily ascertainable by proper means by other persons who can obtain economic value from its

disclosure or use, and (2) is the subject of efforts that are reasonable under the circumstances to maintain its secrecy." Conn. Gen. Stat. § 1-210(b)(5)(A); see also Conn. Gen. Stat. § 35-51(d). Moreover, PURA is permitted to protect from public disclosure "[c]ommercial and financial information given in confidence, not required by statute." Conn. Gen. Stat. § 1-210(b)(5)(B).

9. PURA has previously approved requests to protect similar negotiated pricing and contract information as confidential. See, Docket No. 24-12-01, Application of Yankee Gas Services Company d/b/a Eversource Energy to Amend its Rate Schedules (Dec. 18, 2024 Ruling on Motion No. 5) (protecting as confidential negotiated third-party vendor pricing and agreements); Docket No. 24-12-01, Application of Yankee Gas Services Company d/b/a Eversource Energy to Amend its Rate Schedules (Apr. 14, 2025 Ruling on Motion No. 54) (protecting as confidential negotiated insurance coverages, sub-limits, and retentions); Docket No. 23-11-02, Application of Connecticut Natural Gas Corporation and The Southern Connecticut Gas Company to Amend their Rate Schedules (Nov. 26, 2023 Ruling on Motion No. 12 and Dec. 22, 2023 Ruling on Motion No. 29) (protecting as confidential third-party vendor agreement); Docket No. 14-07-19RE07, PURA Investigation into Redesign of the Residential Electric Billing Format – Cost Allocation Among Suppliers for System Redesign and Associated Costs (July 21, 2022 Ruling on Motion No. 3) (protecting third-party vendors' pricing data as commercially sensitive, confidential, and proprietary); Docket No. 20-08-03, Investigation into Electric Distribution Companies' Preparation for and Response to Tropical Storm Isaias (Dec. 10, 2020 Ruling on Motion No. 43) (protecting as confidential unaudited vendor invoices and pricing information); Docket No. 16-06-04, Application of the United Illuminating Company to Increase Rates and Charges (Aug. 8, 2016 Ruling on Motion No. 10) (approving motion for protective order for rate case expense); (Aug. 8, 2016 Order on Motion No. 8) (allowing confidential status for third-party

vendor pricing information); (Aug. 25, 2016 Order on Motion No. 17) (protecting as confidential pricing and contract with meter reading vendor); Docket No. 14-05-06, Application of The Connecticut Light and Power Company to Amend Rate Schedules (July 25, 2014 Ruling on Motion No. 27) (vendor contracts for rate case expense); Docket No. 13-03-02, Petition of The Connecticut Light and Power Company for Approval to Recover its 2011 – 2012 Major Storm Costs (Apr. 10, 2013 Ruling on Motion No. 1) (third-party vendor pricing information); Docket No. 09-12-05, Application of Connecticut Light and Power Company To Amend Its Rate Schedules (Mar. 22, 2010 Ruling on Motion No. 34) (confidential vendor pricing information).

Forward-Looking Project Authorization Documents

10. OCC-692, Attachment 2 CONFIDENTIAL through Attachment 8 CONFIDENTIAL, are project authorization documents that contain specific condition assessments and siting of the Company's electric distribution system and other facilities. The information provided in these exhibits includes: transformer and substation names, locations, ages, condition of the equipment, loading forecast, Company rankings or other assessments, technical justifications; project scopes; potential alternative solutions studied; results of Substation Constructability Reviews; and engineering schematics, maps, photographs, and diagrams. If disclosed, this information would create a system security risk and provide bad actors with detailed information relating to the Company's infrastructure and jeopardize operation of the Company's system. Specifically, OCC-692, Attachment 2 CONFIDENTIAL through Attachment 8 CONFIDENTIAL, provide project authorization forms for projects that are not yet completed, and describe existing conditions and circumstances that include current vulnerabilities on the Company's system.

11. The Confidential Information included in OCC-692, Attachment 2 CONFIDENTIAL through Attachment 8 CONFIDENTIAL, includes CEII[1] that is exempt from disclosure pursuant to Item 6(d) of PURA's Revised Procedural Order and Conn. Gen. Stat. § 1-210(a) via Federal Energy Regulatory Commission ("FERC") procedure, which requires specific procedures for the handling of CEII. FERC procedure requires that any sharing of CEII is for a legitimate purpose and done in such a manner to ensure that CEII is not placed in the public domain. See 18 C.F.R. § 388.113. Public disclosure of CEII would be contrary to standards established by FERC that are aimed at protecting the security, public health and safety, and economic security of the United States. The Company also asks that recipients of such CEII be required to abide by existing best practices for maintaining the security of CEII.[2]

12. Further, Conn. Gen. Stat. § 1-210(b)(19) exempts from public disclosure "[r]ecords when there are reasonable grounds to believe disclosure may result in a safety risk, including the risk of harm to any person, any government-owned or leased institution or facility or any fixture or appurtenance and equipment attached to, or contained in, such institution or facility[.]"Section 1-210(b)(19) defines "government-owned or leased institution or facility" as including "an institution or facility owned or leased by a public service company, as defined in section 16-1[.]." The Confidential Information included in OCC-692, Attachment 2 CONFIDENTIAL through

[1] 18 C.F.R. § 388.113(c)(2) defines CEII: "Critical energy infrastructure information means specific engineering, vulnerability, or detailed design information about proposed or existing critical infrastructure that" (i) Relates details about the production, generation, transportation, transmission, or distribution of energy; (ii) Could be useful to a person in planning an attack on critical infrastructure; (iii) Is exempt from mandatory disclosure under the Freedom of Information Act, 5 U.S.C. § 552; and (iv) Does not simply give the general location of the critical infrastructure."

[2] For example, (i) recipients of CEII may only discuss CEII with another recipient of the identical CEII, (ii) recipients of CEII may use CEII as foundation advice provided to others but may not disclose CEII to another individual unless that individual is an approved CEII recipient of the same CEII, (iii) recipients of CEII will not use it for an illegal or non-legitimate purpose, and (iv) the CEII is to be maintained in a secure place with access limited to CEII recipient of the identical material.

Attachment 8 CONFIDENTIAL, meets the definition of records described as exempt by Conn. Gen. Stat. § 1-210(b)(19). The Confidential Information includes details about the distribution of energy throughout the Company's system, describes vulnerabilities outlined in project filings that could be useful to a person or entity planning an attack on critical infrastructure, and gives specific details about the location of the equipment. Public disclosure of this information creates a safety risk to facilities owned by the Company and could potentially result in a safety risk for the public.

13. The redactions in OCC-692, Attachment 2 CONFIDENTIAL through Attachment 8 CONFIDENTIAL (see note on page 2), are more numerous and cover more information than similar documents for previously completed projects that are afforded protective treatment by PURA. See Docket No. 26-01-03, PURA Annual Review of the Rate Adjustment Mechanisms of The Connecticut Light and Power Company (March 10, 2026 Ruling on Motion No. 6) (providing protective treatment to one-line diagrams and transmission-related CEII). However, there is an important difference that must be considered in the context of Conn. Gen. Stat. § 1- 210(b)(19). In Docket No. 26-01-03 and many other PURA proceedings, project authorization documentation is provided for completed projects, where the project itself has removed the vulnerability or risk of damage, and thus there is no existing vulnerability on the system at that location at the time the documentation is provided. In OCC-692, Attachment 2 CONFIDENTIAL through Attachment 8 CONFIDENTIAL, the projects described are *proposed* projects, meaning the vulnerabilities exist today. This prospective look at potential projects the Company will implement in the future provides current system vulnerabilities rather than vulnerabilities that have already been addressed. This prospective look at potential projects heightens the safety risk to Eversource's facilities and therefore heightens the sensitivity of the information contained in the Confidential Attachments.

14. In addition to the prospective versus retrospective context of the information provided in OCC-692, Attachment 2 CONFIDENTIAL through Attachment 8 CONFIDENTIAL, the Company also recognizes the impact of technological advances, particularly Artificial Intelligence ("AI"), on the ability of potential bad actors to access, aggregate, and organize significant amounts of information across years of public filings in PURA dockets and other communications in mere minutes. Where in the past, an individual or entity would need to spend significant resources manually researching dockets and filings without confidence that they had found all the relevant documents, a series of fairly simple AI scripts can program an agent to search all filings and save the relevant information in minutes, while including a summary of what it had found. The rapid increase of mapping and geographic image technology available to the public online in recent years also increases the possibility of using AI to compare information in OCC-692, Attachment 2 CONFIDENTIAL through Attachment 8 CONFIDENTIAL, to those public images to determine fairly precise locations of equipment shown in those images. These technological advances require the Company and PURA, as well as all public agencies and stakeholders, to rethink the submittal of redacted copies of confidential information in the context of weighing the public interest in the disclosure against the risk of making information publicly available and accessible by AI.

15. PURA has previously granted requests to maintain CEII as confidential. See Docket No. 24-12-01, Application of Yankee Gas Services Company d/b/a Eversource Energy to Amend Its Rate Schedules, (December 18, 2024 Ruling to Motion No. 5) (protecting as confidential Yankee's CEII); Docket No. 16-06-04, Application of The United Illuminating Company to Increase Rates and Charges (August 9, 2016 Order on Motion No. 10) (protecting as confidential critical energy infrastructure information); Docket No. 13-01-19, Application of The

United Illuminating Company to Increase Rates and Charges (Apr. 16, 2013 Order on Motion No. 9; Apr. 30, 2013 Order on Motion No. 13) (protecting as confidential critical energy infrastructure information).

16. Further, OCC-692, Attachment 2 CONFIDENTIAL through Attachment 8 CONFIDENTIAL, contain information that derives economic value, actual or potential, from not being generally known to, and not being readily ascertainable by proper means by other persons who can obtain economic value from their disclosure or use, and also constitutes commercial or financial information given in confidence, not required by statute. Specifically, because OCC-692, Attachment 2 CONFIDENTIAL through Attachment 8 CONFIDENTIAL, include many details related to the nature, scoping, and anticipated hours of work required for projects that are not yet completed, this information could be inappropriately used by the Company's vendors if released into the public domain.

17. This information is exempt from disclosure pursuant to Item 6(b) of PURA's Revised Procedural Order and Conn. Gen. Stat. § 1-210(b)(5)(A) and (B). Conn. Gen. Stat. § 1-210(b)(5)(A) and (B) provide exemptions from disclosure for information that "derives economic value, actual or potential, from not being generally known to, and not being readily ascertainable by proper means by other persons who can obtain economic value from their disclosure or use", and is "the subject of efforts that are reasonable under the circumstances to maintain secrecy"; and information that is "[c]ommercial or financial information given in confidence, not required by statute".

18. While it is rare for forward-looking project authorization documentation to be provided in PURA proceedings, PURA has granted requests to maintain forward-looking financial information in other types of documentation as confidential. See, e.g., Docket No. 22-08-08,

Application of The United Illuminating Company to Amend its Rate Schedules (Nov. 3, 2022 Ruling on Motion No. 22) (protecting as confidential non-public forecast financial information); Docket No. 17-12-03RE11, PURA Investigation into Distribution System Planning of the Electric Distribution Companies – New Rate Designs and Rates Review (March 11, 2021 Ruling on Motion No. 11) (approving confidential treatment for non-public financial projections); Docket No. 15-08-28, Application of RCLEC, Inc. For a Certificate of Public Convenience and Necessity to Provide Local Exchange and Interexchange Services in the State of Connecticut (Aug. 25, 2015 Order on Motion No. 1) (financial statements); Docket No. 14-01-46, Joint Application of Frontier Communications Corporation and AT&T Inc. for Approval of a Change of Control (Apr. 10, 2014 Order on Motion No. 13) (non-public financial information and financial analysis); Docket No. 09-12-05, Application of the Connecticut Light and Power Company to Amend its Rate Schedules (Feb. 4, 2010 Order on Motion No. 16) (financial information presented to credit rating agencies).

Compensation Information

19. OCC-708, Attachment 1 CONFIDENTIAL, provides confidential information, specifically the employee positions related to the 2025 severance amounts provided in OCC-357, Attachment 1 CONFIDENTIAL. The Company has redacted specific titles in order to avoid identifying specific non-executive employees. The information in OCC-708, Attachment 1 CONFIDENTIAL, could be easily cross-referenced if unredacted, leading to members of the public or Eversource employees being able to ascertain confidential compensation information for other Eversource employees. The disclosure would violate the privacy interests of the affected employees, revealing their specific compensation information, both internally and to the general public. The Company takes great care not to disclose confidential compensation information publicly or to other employees.

20. The specific titles have been modified to a more generic form pursuant to Pursuant to Item 7(c) of PURA's Revised Procedural Order. Additionally, pursuant to Conn. Gen. Stat. § 1-210(b)(2), the Confidential Information in OCC-708, Attachment 1 CONFIDENTIAL, qualifies as "[p]ersonnel or medical files and similar files the disclosure of which would constitute an invasion of personal privacy" and is exempt from public disclosure.

21. PURA has previously protected from disclosure employee information where the disclosure of such information would constitute an invasion of personal privacy. See, Docket No. 24-10-04, Application of The United Illuminating Company to Amend its Rate Schedules (Feb. 11, 2025 Docket Entry Ruling on Motion No. 20) (Apr. 9, 2025 Docket Entry Ruling on Motion No. 78). Further, PURA has previously protected from public disclosure the personal identifying information of utility employees. See, e.g., Docket No. 24-12-01, Application of Yankee Gas Services Company d/b/a Eversource Energy to Amend its Rate Schedules (Jul. 16, 2025 Ruling on Motion No. 120) (protecting as confidential employee compensation information and salary information); Docket No. 22-04-01, Application of Aquarion Company, Aquarion Merger Company II, LLC, and The Torrington Water Company for Approval of Change in Control (June 30, 2022 Ruling on Motion No. 2) (approving confidential treatment for specific salary information tied to non-officer level employees); Docket No. 21-04-23, Application of Aquarion Company, Aquarion Merger Company, LLC, Aquarion Water Company of Connecticut, New England Service Company and Valley Water Systems, Inc. for Approval of Change of Control and Plan of Merger (July 23, 2021 Ruling on Motion No. 3; Aug. 24, 2021 Ruling on Motion No. 5); Docket No. 20-08-03, PURA Investigation Into Electric Distribution Companies' Preparation and Response to Tropical Storm Isaias (Dec. 7, 2020 Ruling on Motion No. 32) (protecting as

confidential company employee personal contact information) (Dec. 10, 2020 Ruling on Motion No. 41) (protecting as confidential personal employee information).

22. The Confidential Information is maintained by the Company as confidential and has not been disclosed or released to the public.

23. The Confidential Information is exempt from disclosure under Conn. Gen. Stat. §1-210 (a) and (b), as described herein.

24. Additionally, pursuant to the Revised Procedural Order, the Confidential Information is the type of information that is typically subject to protected treatment, including employee names, confidential customer information, CEII, employee compensation data, and third-party pricing information and contract terms.

25. In this case, the necessity of withholding public disclosure of the Confidential Information outweighs the public interest in such disclosure.

26. Attached in support of this motion as Attachment A, is the Affidavit of Casandra Dickson, Director of Regulatory Projects and Compliance for Eversource Energy Service Company. The affidavit addresses the need for protective treatment of the Confidential Information described in this motion.

27. For the foregoing reasons, CL&P respectfully requests that PURA grant this motion for protective order.
