Dear [redacted] and [redacted]:

Deloitte & Touche LLP ("D&T" or "we" or "us") is pleased to serve as (1) the independent registered public accounting firm for Eversource Energy ("Eversource"), and for the entities listed in Appendix J, Section 1 (collectively, the "Entities"), and (2) the independent auditors for the subsidiaries listed in Appendix J, Sections 2, 3 and 4 (each a "Subsidiary", collectively, the "Subsidiaries"). Eversource, the Entities, and the Subsidiaries are collectively referred to herein as (the "Company" or "you" or "your"). Mr. Christopher Lee will be responsible for the services that we perform for the Company hereunder.

In addition to the audit and review services we are engaged to provide under this engagement letter, we would also be pleased to assist the Company on issues as they arise throughout the year. Hence, we hope that you will call Mr. Lee whenever you believe D&T can be of assistance. This assistance will require approval by Eversource's audit committee (the "Audit Committee") in accordance with its preapproval policies and procedures.

The services to be performed by D&T pursuant to this engagement are subject to the terms and conditions set forth herein and in the accompanying appendices. Such terms and conditions shall be effective as of the date of the commencement of such services.

Docusign Envelope ID: E6AF30D8-7134-490C-A054-6A4709E8FE61

Eversource Energy confirms that it has the power and authority to execute this engagement letter, including the appendices attached hereto, on behalf of, and to bind, the Entities and the Subsidiaries.

Audit of Financial Statements and the Effectiveness of Eversource's Internal Control over Financial Reporting

Our engagement is to perform an integrated audit in accordance with the standards of the Public Company Accounting Oversight Board (PCAOB) (United States) (the "PCAOB Standards"). The objectives of an integrated audit conducted in accordance with the PCAOB Standards are the expression of opinions on (1) the fairness of the presentation of Eversource's consolidated financial statements for the year ending December 31, 2026, in conformity with accounting principles generally accepted in the United States of America ("generally accepted accounting principles"), in all material respects, and (2) the effectiveness of Eversource's internal control over financial reporting as of December 31, 2026, based on the criteria established in *Internal Control — Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (the "COSO Framework").

Appendix A contains a description of an integrated audit in accordance with the PCAOB Standards.

Audits of the Entities' Financial Statements

Our engagement is also to perform financial statement audits of the Entities in accordance with the PCAOB Standards. The objective of a financial statement audit conducted in accordance with the PCAOB Standards is to express an opinion on the fairness of the presentation of each of the Entities' financial statements for the year ending December 31, 2026, in conformity with generally accepted accounting principles, in all material respects.

Appendix B contains a description of a financial statement audit in accordance with the PCAOB Standards.

Audits of the Subsidiaries' Financial Statements

Our engagement is also to perform audits of the Subsidiaries in accordance with auditing standards generally accepted in the United States of America ("generally accepted auditing standards") or ("GAAS"). The objective of an audit conducted in accordance with generally accepted auditing standards is to express an opinion on whether each of the Subsidiaries' financial statements for the year ending December 31, 2026, are presented fairly, in all material respects, in accordance with either (1) generally accepted accounting principles, for those subsidiaries listed in Appendix J, Section 2, or (2) accounting requirements of the Federal Energy Regulatory Commission ("FERC"), as set forth in its applicable Uniform System of Accounts and published accounting releases, for those subsidiaries listed in Appendix J, Sections 3 and 4.

Appendix C contains a description of the auditor's responsibilities and the scope of an audit in accordance with generally accepted auditing standards.

Docusign Envelope ID: E6AF30D8-7134-490C-A054-6A4709E8FE61

Supplementary information accompanies the financial statements of the Subsidiaries listed in Appendix J, Section 4. We will subject such supplementary information to the auditing procedures applied to our audit of the financial statements of each of the Subsidiaries and certain additional procedures with the objective of expressing an opinion on whether such information is fairly stated, in all material respects, in relation to the financial statements of the Subsidiaries as a whole.

D&T Reports

Our ability to express any opinion or to issue any report as a result of this engagement and the wording thereof will, of course, be dependent on the facts and circumstances at the date of our reports. If, for any reason, we are unable to complete any of our audits or are unable to form or have not formed any opinion, we may decline to express any opinion or decline to issue any report as a result of this engagement. If we are unable to complete any of our audits, or if any report to be issued by D&T as a result of this engagement requires modification, the reasons for this will be discussed with the Audit Committee and management for Eversource and the Entities, and with the Chief Financial Officer of Eversource (the "Chief Financial Officer") for the Subsidiaries.

Compliance with Contractual Agreements

In connection with our audit of the financial statements of NSTAR Gas Company ("NG") contemplated by this engagement letter, management has requested that we report on NG's compliance with certain terms, covenants, provisions, or conditions ("Agreement Terms") listed in Appendix G, as applicable, insofar as such Agreement Terms relate to accounting matters, as described in American Institute of Certified Public Accountants (AICPA) AU-C 806, *Reporting on Compliance with Aspects of Contractual Agreements or Regulatory Requirements in Connection with Audited Financial Statements* ("Negative Assurance Report"). During the course of our audits, management may request that we report on NG's compliance with Agreement Terms of additional agreements. If we agree to report on NG's compliance with such additional Agreement Terms and issue related Negative Assurance Reports, such reports, and our issuance of such reports, shall be subject to the terms and conditions set forth herein and in the accompanying appendices.

The objective of a Negative Assurance Report is to report on whether, in connection with our audit of NG's financial statements, any matters have come to our attention in the course of our audit procedures that caused us to believe that NG failed to comply with the Agreement Terms insofar as they relate to NG's accounting matters. The objective of a Negative Assurance Report is not to express an opinion on NG's compliance with any Agreement Terms or any other matters. Our audits will not be directed primarily toward obtaining knowledge of NG's compliance or noncompliance with any Agreement Terms insofar as they relate to NG's accounting matters. We will not provide any Negative Assurance Report with respect to Agreement Terms that relate to matters that have not been subjected to the audit procedures performed as part of our audits.

The use of any Negative Assurance Report issued by D&T hereunder will be restricted to NG and the respective parties expressly identified in such report as recipients of such report (each a "Recipient"). Accordingly, NG agrees that such report will not be distributed to anyone other than the Recipients.

Docusign Envelope ID: E6AF30D8-7134-490C-A054-6A4709E8FE61

Reviews of Interim Financial Information

We will also perform a review of Eversource's and the Entities' interim financial information (the "interim financial information") in accordance with the PCAOB Standards ("interim review") for each of the quarters in the year ending December 31, 2026, prepared for submission to the Securities and Exchange Commission (SEC). The objective of an interim review is to provide us with a basis for communicating whether we are aware of any material modifications that should be made to the interim financial information for it to conform with generally accepted accounting principles. The objective of an interim review is also to provide us with a basis for determining whether we are aware of any material modifications that, in our judgment, should be made to management's disclosures about changes in internal control over financial reporting that have materially affected or are reasonably likely to materially affect Eversource's and the Entities' internal control over financial reporting for management's certifications to be accurate and to comply with the requirements of Section 302 of the Sarbanes-Oxley Act of 2002 and related SEC rules and regulations.

Appendix D contains a description of an interim review in accordance with the PCAOB Standards.

If we become aware of material modifications that should be made to the interim financial information for it to conform with generally accepted accounting principles, or if we become aware of deficiencies in internal control over financial reporting so significant that they would preclude management's preparation of interim financial information in conformity with generally accepted accounting principles, we may be precluded from completing any of our reviews. If, for any reason, we are unable to complete any of our interim reviews, the reasons for this will be discussed with the Audit Committee and Eversource's and the Entities' management.

Management's Responsibilities

Appendix E describes management's responsibilities.

Audit Committee's Responsibility and Auditor Communications

As the independent registered public accounting firm of Eversource and the Entities, and the independent auditors of the Subsidiaries, we acknowledge that the Audit Committee is directly responsible for the appointment and compensation of our work. The Audit Committee is also directly responsible for oversight of our work related to Eversource and the Entities and the Chief Financial Officer is directly responsible for oversight of our work related to the Subsidiaries. Accordingly, except as otherwise specifically noted, we will report directly to the Audit Committee or the Chief Financial Officer, as applicable. You have advised us that the services to be performed under this engagement letter, including, where applicable, (1) the use by D&T of affiliates or related entities as subcontractors in connection with this engagement, and (2) any additional work performed by D&T in connection with the services to be performed under this engagement letter, have been approved by the Audit Committee in accordance with the Audit Committee's established preapproval policies and procedures. Such additional work, that generally only the independent registered public accounting firm can reasonably provide, includes audit and accounting consultations, additional procedures related to matters identified during the engagement (e.g., fraud or illegal acts, prior period errors, or retrospective adoption of an

Docusign Envelope ID: E6AF30D8-7134-490C-A054-6A4709E8FE61

accounting standard), assistance with and review of documents filed with the SEC or other regulator, and evaluation of responses to SEC comment letters or other inquiries by regulators related to accounting and disclosure matters.

Under the PCAOB Standards and SEC Rule 2-07 of Regulation S-X, we are required to communicate with the Audit Committee about various matters in connection with our audits and interim reviews. Under generally accepted auditing standards, we are also required to communicate with the Chief Financial Officer and management about various matters in connection with our audits of the Subsidiaries. Appendix F describes such communications.

Fees

We estimate that our fees for this engagement will be [redacted], plus expenses. Based on the anticipated timing of the work, our fees will be billed approximately as follows:

Invoice Date	Amount
May 2026	[redacted]
July 2026	
October 2026	
December 2026	

We anticipate sending invoices according to the above schedule, and payments are due 30 days from the date of the invoice. Engagement-related expenses, and technology- and administrative-related charges will be billed in addition to the fees and will be stated separately on the invoices.

The estimated fees outlined above do not include fees for procedures in connection with comfort letters or consents, which will be billed as incurred. The above fees also do not include fees associated with the services related to the Public Service Company of New Hampshire securitization examination engagement, which is addressed in a separate engagement letter.

Our continued service on this engagement is dependent upon payment of our invoices in accordance with these terms. Our estimated fees are based on certain assumptions, including (1) timely and accurate completion of the requested entity participation schedules and additional supporting information, (2) no inefficiencies during the audit or interim review process or changes in scope caused by events that are beyond our control, (3) the effectiveness of internal control over financial reporting throughout the periods under audit and interim review, (4) a minimal level of audit adjustments (recorded or unrecorded), and (5) no changes to the timing or extent of our work plans. We will notify you promptly of any circumstances we encounter that could significantly affect our estimate and discuss with you any additional fees, as necessary. Additional services include significant accounting consultations and will be billed on a time and materials basis.

Docusign Envelope ID: E6AF30D8-7134-490C-A054-6A4709E8FE61

Inclusion of D&T Reports or References to D&T in Other Documents or Electronic Sites

If the Company intends to publish or otherwise reproduce in any document any report issued as a result of this engagement related to Eversource, the Entities, or the Subsidiaries listed in Appendix J, Section 2, or otherwise make reference to D&T in a document that contains other information in addition to the audited financial statements or the interim financial information (e.g., in a periodic filing with the SEC or other regulator, in an annual report, in a debt or equity offering circular, or in a private placement memorandum), thereby associating D&T with such document, the Company agrees that its management will provide D&T with a draft of the document to read and obtain our approval for the inclusion or incorporation by reference of any of our reports, or the reference to D&T, in such document before the document is printed and distributed. The inclusion or incorporation by reference of any of our reports in any such document would constitute the reissuance of such reports. The Company also agrees that its management will notify us and obtain our approval prior to including any of our reports on an electronic site.

Our engagement to perform the services described herein does not constitute our agreement to be associated with any such documents published or reproduced by or on behalf of the Company. Any request by the Company to reissue any report issued as a result of this engagement, to consent to, or acknowledge our awareness of, any such report's inclusion or incorporation by reference in an offering or other document, or to agree to any such report's inclusion on an electronic site will be considered based on the facts and circumstances existing at the time of such request. The estimated fees outlined herein do not include any procedures that would need to be performed in connection with any such request. Should D&T agree to perform such procedures, fees for such procedures would be subject to the mutual agreement of the Company and D&T.

If D&T is requested to consent to the inclusion or incorporation by reference of any report issued as a result of this engagement in an offering or other document, or to issue a comfort letter relating to financial information included, or incorporated by reference, in an offering or other document, D&T would need to perform the procedures necessary to enable D&T to issue such a consent or comfort letter. The Company hereby confirms that the performance of such procedures is approved by the Audit Committee in accordance with the Audit Committee's established preapproval policies and procedures.

Restriction on Report Use

The Company agrees that any attest report issued by D&T on regulatory basis financial statements included within the FERC and Public Utilities Regulatory Authority ("PURA") filings (for the Subsidiaries identified in Appendix J, Sections 3 and 4) is intended solely for the information and use of the board of directors of each applicable Subsidiary, management of the Subsidiary and for filing with the FERC and PURA, and that our report is not intended to be and should not be used by anyone other than these specified parties; nor will it be made available to any other persons or entities, or included, incorporated by reference, or referred to in any filings with regulators except for filing with the FERC and PURA. Notwithstanding the foregoing, the Company may provide access to our reports on regulatory basis financial statements to any governmental agency or regulatory authority having or claiming to have jurisdiction over the business or financial affairs of

Docusign Envelope ID: E6AF30D8-7134-490C-A054-6A4709E8FE61

the applicable Subsidiary solely to the extent requested or compelled by such agency or authority. Should the Subsidiary, be required to or elect to, as permitted above, disclose D&T's report, the Subsidiary agrees, prior to such disclosure being made, to provide D&T with prompt written notice of such disclosure and of the content of such proposed disclosure, to the extent permitted by law and reasonably practicable under the circumstances, so that D&T shall have reasonable opportunity to obtain a protective order or other appropriate remedy with respect to maintaining the confidentiality and limiting further distribution of the content of such disclosure. The Company will use its commercially reasonable efforts to minimize the extent of such disclosure.

Limitation on Personal Liability

No shareholder of Eversource shall be held to any liability whatsoever for any obligation under this engagement letter, and this engagement letter shall not be enforceable against any trustee, in their or his or her individual capacity. This engagement letter shall only be enforceable against the trustees of Eversource as such, and every person, firm, association, trust or corporation having any claim or demand arising under this engagement letter shall look solely to the trust estate of Eversource for the payment or satisfaction thereof. Notwithstanding anything to the contrary, this provision does not affect management's responsibilities as set forth in this engagement letter nor does this provision release or limit the liability of the trustees or officers for any claims or demands resulting from their or his or her willful acts, neglects and defaults constituting a breach of trust knowingly and intentionally committed by them, him or her in bad faith.

******

The parties acknowledge and agree that D&T is being engaged under this engagement letter to provide only the services described herein. Should the Company or the Audit Committee request, and should D&T agree to provide, services (including audit and review services) beyond those described herein, such services will constitute a separate engagement and will be governed by a separate engagement letter.

This engagement letter, including Appendices A through J attached hereto and made a part hereof, constitutes the entire agreement between the parties with respect to this engagement and supersedes any other prior or contemporaneous agreements or understandings between the parties, whether written or oral, relating to this engagement.

If the above terms are acceptable and the services described are in accordance with your understanding, please sign the copy of this engagement letter in the space provided and return it to us.

APPENDIX A

DESCRIPTION OF AN INTEGRATED AUDIT IN ACCORDANCE WITH THE PCAOB STANDARDS

This Appendix A is part of the engagement letter dated April 6, 2026, between Deloitte & Touche LLP and Eversource Energy and acknowledged and agreed to by the Audit Committee of Eversource Energy.

Components of an Integrated Audit- Eversource

An integrated audit includes the following:

- Examining, on a test basis, evidence supporting the amounts and disclosures in Eversource's financial statements
- Inquiring directly of the Audit Committee regarding (1) its views about fraud risks in Eversource, (2) whether it has knowledge of any actual, suspected, or alleged fraud affecting Eversource, and (3) whether it is aware of tips or complaints regarding Eversource's financial reporting (including those received through any internal whistleblower program, if such program exists) and, if so, its responses to such tips and complaints
- Assessing the accounting principles used and significant estimates made by management
- Evaluating the overall financial statement presentation
- Examining, on a test basis, evidence supporting the design and operating effectiveness of internal control over financial reporting
- Evaluating the effectiveness of internal control over financial reporting

An integrated audit does not include the performance of any procedures with respect to financial information in an interactive data format using eXtensible Business Reporting Language (XBRL). Any procedures that Eversource requests D&T to perform related to any such XBRL interactive data would be described in a separate engagement letter.

Reasonable Assurance

The PCAOB Standards require that we plan and perform the audit to obtain reasonable, rather than absolute, assurance about (1) whether the financial statements of Eversource are free of material misstatement, whether caused by error or fraud, and (2) whether effective internal control over financial reporting was maintained in all material respects. However, because of the characteristics of fraud, a properly planned and performed audit may not detect a material misstatement or material weakness. Accordingly, there is some risk that a material misstatement

Docusign Envelope ID: E6AF30D8-7134-490C-A054-6A4709E8FE61

of the financial statements of Eversource or a material weakness in internal control over financial reporting would remain undetected. Also, an integrated audit is not designed to detect error or fraud that is immaterial to the financial statements of Eversource or deficiencies in internal control over financial reporting that, individually or in combination, are less severe than a material weakness.

Inherent Limitations of Internal Control over Financial Reporting

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal control over financial reporting to future periods are subject to the risk that the internal control may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Docusign Envelope ID: E6AF30D8-7134-490C-A054-6A4709E8FE61

APPENDIX B

DESCRIPTION OF A FINANCIAL STATEMENT AUDIT IN ACCORDANCE WITH THE PCAOB STANDARDS

This Appendix B is part of the engagement letter dated April 6, 2026, between Deloitte & Touche LLP and Eversource Energy and acknowledged and agreed to by the Audit Committee of Eversource Energy.

Components of a Financial Statement Audit- Entities

A financial statement audit includes the following:

- Obtaining an understanding of internal control sufficient to plan the audit and to determine the nature, timing, and extent of audit procedures to be performed, but not for the purpose of expressing an opinion on the effectiveness of internal control over financial reporting
- Examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements of the Entities
- Inquiring directly of the Audit Committee regarding (1) its views about fraud risks in the Entities, (2) whether it has knowledge of any actual, suspected, or alleged fraud affecting the Entities, and (3) whether it is aware of tips or complaints regarding the Entities' financial reporting (including those received through any internal whistleblower program, if such program exists) and, if so, its responses to such tips and complaints
- Assessing the accounting principles used and significant estimates made by management
- Evaluating the overall financial statement presentation of the Entities

A financial statement audit does not include the performance of any procedures with respect to financial information in an interactive data format using eXtensible Business Reporting Language (XBRL). Any procedures that the Entities request D&T to perform related to any such XBRL interactive data would be described in a separate engagement letter.

Reasonable Assurance

The PCAOB Standards require that we plan and perform the audit to obtain reasonable, rather than absolute, assurance about whether the financial statements of the Entities are free of material misstatement, whether caused by error or fraud. However, because of the characteristics of fraud, a properly planned and performed audit may not detect a material misstatement. Accordingly, there is some risk that a material misstatement of the financial statements of the Entities would remain undetected. Also, a financial statement audit is not designed to detect error or fraud that is immaterial to the financial statements of the Entities, nor is it designed to provide assurance on internal control or to identify control deficiencies.

Docusign Envelope ID: E6AF30D8-7134-490C-A054-6A4709E8FE61

APPENDIX C

AUDITOR'S RESPONSIBILITIES AND SCOPE OF AN AUDIT IN ACCORDANCE WITH GENERALLY ACCEPTED AUDITING STANDARDS

This Appendix C is part of the engagement letter dated April 6, 2026, between Deloitte & Touche LLP and Eversource Energy and acknowledged and agreed to by the Audit Committee of Eversource Energy.

Auditor's Responsibilities

Our responsibilities under generally accepted auditing standards include forming and expressing an opinion about whether the financial statements of the Subsidiaries that have been prepared by management with the oversight of the Chief Financial Officer are presented fairly, in all material respects, in accordance with either (1) generally accepted accounting principles for those subsidiaries listed in Appendix J, Section 2, or (2) accounting requirements of FERC, as set forth in its applicable Uniform System of Accounts and published accounting releases for those subsidiaries listed in Appendix J, Sections 3 and 4. The audits of the financial statements of the Subsidiaries do not relieve management or the Chief Financial Officer of their responsibilities.

Scope of an Audit - Subsidiaries

Generally accepted auditing standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements of the Subsidiaries as a whole are free from material misstatement, whether due to fraud or error. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements can arise from fraud or error and are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements of the Subsidiaries.

An audit performed in accordance with generally accepted auditing standards, includes the following:

- Exercising professional judgment and maintaining professional skepticism throughout the audits.

- Identifying and assessing the risks of material misstatement of the financial statements of the Subsidiaries, whether due to fraud or error, and designing and performing audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding amounts and disclosures in the Subsidiaries' financial statements.

Docusign Envelope ID: E6AF30D8-7134-490C-A054-6A4709E8FE61

- Obtaining an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Subsidiaries' internal control. Accordingly, no such opinion will be expressed.

- Evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the Subsidiaries' financial statements.

- Concluding whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Subsidiaries' ability to continue as a going concern for a reasonable period of time.

Because of the inherent limitations of an audit, together with the inherent limitations of internal control, an unavoidable risk exists that some material misstatements may not be detected, even though the audits are properly planned and performed in accordance with generally accepted auditing standards. We have no responsibility to plan and perform the audit to obtain reasonable assurance that misstatements, whether due to fraud or error, that are not material to the financial statements of the Subsidiaries as a whole are detected.

Docusign Envelope ID: E6AF30D8-7134-490C-A054-6A4709E8FE61

APPENDIX D

DESCRIPTION OF AN INTERIM REVIEW IN ACCORDANCE WITH THE PCAOB STANDARDS

This Appendix D is part of the engagement letter dated April 6, 2026, between Deloitte & Touche LLP and Eversource Energy and acknowledged and agreed to by the Audit Committee of Eversource Energy.

Interim Reviews

An interim review is substantially less in scope than an audit in accordance with the PCAOB Standards, the objective of which is to express an opinion on the financial statements of Eversource or the Entities taken as a whole. Accordingly, an interim review will not result in the expression of an opinion concerning the fairness of the presentation of the interim financial information in conformity with generally accepted accounting principles and cannot be relied on to reveal all significant matters that would be disclosed in an audit.

An interim review consists principally of applying analytical procedures to pertinent financial data and making inquiries of, and evaluating responses from, certain management personnel of Eversource and the Entities who have responsibility for financial and accounting matters. An interim review also includes obtaining sufficient knowledge of Eversource's and the Entities' business and its internal control as they relate to the preparation of both annual and interim financial information to (1) identify the types of potential material misstatements in the interim financial information and consider the likelihood of their occurrence, and (2) select the inquiries and analytical procedures that will provide us with a basis for communicating whether we are aware of any material modifications that should be made to the interim financial information for it to conform with generally accepted accounting principles. An interim review is not designed to provide assurance on internal control or to identify control deficiencies.

An interim review does not include the performance of any procedures with respect to interim financial information in an interactive data format using XBRL.

With respect to our review of the interim financial information of Eversource and the Entities, an interim review also includes procedures, principally observation and inquiries, relating to management's disclosures about changes in Eversource's and the Entities' internal control over financial reporting to provide us with a basis for communicating whether we are aware of any modifications that, in our judgment, should be made to such disclosures for management's certifications to be accurate and to comply with the requirements of Section 302 of the Sarbanes-Oxley Act of 2002 and related SEC rules and regulations. These procedures are substantially less in scope than an audit of Eversource's or the Entities' internal control over financial reporting in accordance with the PCAOB Standards. Accordingly, an interim review cannot be relied on to reveal all significant matters that would be disclosed in an audit of Eversource's or the Entities' internal control over financial reporting, and we will not express an opinion on the effectiveness of internal control over financial reporting.

Docusign Envelope ID: E6AF30D8-7134-490C-A054-6A4709E8FE61

APPENDIX E

MANAGEMENT'S RESPONSIBILITIES

This Appendix E is part of the engagement letter dated April 6, 2026, between Deloitte & Touche LLP and Eversource Energy and acknowledged and agreed to by the Audit Committee of Eversource Energy.

Financial Statements and the Effectiveness of Internal Control over Financial Reporting - PCAOB

Management is responsible for the preparation, fair presentation, and overall accuracy of the financial statements and interim financial information of Eversource and the Entities, including disclosures, in conformity with generally accepted accounting principles. The assessment of the effectiveness of internal control over financial reporting to comply with Section 404 of the Sarbanes-Oxley Act of 2002 and related SEC rules and regulations is also the responsibility of Eversource's management. In this regard, management has the responsibility for, among other things:

- Selecting and applying the accounting policies
- Establishing and maintaining effective internal control over financial reporting and with respect to Eversource, informing D&T of all deficiencies in the design or operation of Eversource's internal control over financial reporting identified as part of Eversource management's evaluation, including separately disclosing to D&T all such deficiencies that management believes to be significant deficiencies or material weaknesses in Eversource's internal control over financial reporting
- Informing D&T of significant changes in the design or operation of Eversource's internal control over financial reporting that occurred during each fiscal quarter or subsequent to the date being reported on
- Establishing and maintaining effective internal control over financial reporting and informing D&T of significant changes in the design or operation of Eversource's and the Entities' internal control over financial reporting that occurred during each fiscal quarter or subsequent to the date being reported on
- Identifying and ensuring that Eversource and the Entities comply with the laws and regulations applicable to their activities and informing us of any known or possible material violations of such laws or regulations
- Adjusting the financial statements of Eversource and the Entities to correct material misstatements relating to accounts or disclosures, and affirming to D&T in the representation letter that the effects of any uncorrected misstatements aggregated by us

Docusign Envelope ID: E6AF30D8-7134-490C-A054-6A4709E8FE61

are immaterial, both individually and in the aggregate, to each of the financial statements taken as a whole

- Providing D&T with (1) access to all information of which management and, where appropriate, the Audit Committee are aware that is relevant to the preparation and fair presentation of the financial statements and interim financial information of Eversource and the Entities, such as records, documentation, and other matters, (2) additional information that we may request from management and, where appropriate, the Audit Committee for the purpose of our audits and interim reviews, and (3) unrestricted access to personnel within the Company from whom we determine it necessary to obtain evidence

Financial Statements – Subsidiaries

Management is responsible for the preparation, fair presentation, and overall accuracy of the financial statements of the Subsidiaries, including disclosures, in accordance with generally accepted accounting principles or, in the case of the Subsidiaries listed in Appendix J, Sections 3 and 4, the accounting requirements of FERC, as set forth in its applicable Uniform System of Accounts and published accounting releases. In this regard, management has the responsibility for, among other things:

- Selecting and applying the accounting policies
- Designing, implementing, and maintaining effective internal control relevant to the preparation and fair presentation of financial statements of the Subsidiaries that are free from material misstatement, whether due to fraud or error
- Identifying and ensuring that the Subsidiaries comply with the laws and regulations applicable to their activities and informing us of all instances of identified or suspected noncompliance with such laws or regulations
- Evaluating whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Subsidiaries' ability to continue as a going concern
- Providing us with (1) access to all information of which management is aware that is relevant to the preparation and fair presentation of the financial statements of the Subsidiaries, such as records, documentation, and other matters, (2) additional information that we may request from management for the purpose of our audits, and (3) unrestricted access to personnel within the Subsidiaries from whom we determine it necessary to obtain audit evidence
- Including all informative disclosures in the financial statements of the Subsidiaries listed in Appendix J, Sections 3 and 4, that are appropriate for the accounting requirements of FERC, as set forth in its applicable Uniform System of Accounts and published accounting releases.

Management is also responsible for (1) preparing the supplementary information in accordance with the applicable criteria (supplemental schedule of utility plant template), (2) including our

Docusign Envelope ID: E6AF30D8-7134-490C-A054-6A4709E8FE61

report on the supplementary information in any document that contains the supplementary information and that indicates that D&T has reported on such supplementary information, and (3) presenting the supplementary information with the audited financial statements of the Subsidiaries.

Management's Representations

We will make specific inquiries of the Company's management about the representations embodied in the Company's financial statements, and interim financial information, supplementary information, and management's assessment of the effectiveness of Eversource's internal control over financial reporting. In addition, we will request that management provide us with the written representations the Company is required to provide to its independent registered public accounting firm under the PCAOB Standards and to its independent auditors under generally accepted auditing standards. The responses to those inquiries and the written representations of management are part of the evidential matter that D&T will rely on in forming its opinions. We will also request a similar representation letter as part of our interim reviews.

Process for Obtaining Preapproval of Services

Management is responsible for the coordination of obtaining the preapproval of the Audit Committee, in accordance with the Audit Committee's preapproval process, for any services to be provided by D&T to the Company.

Program and Subscription Services

D&T makes available to clients and nonclients various educational and informational programs, seminars, tools, and related services, such as live programs, webcasts (including the Dbriefs webcast series), podcasts, websites, database subscriptions (including some that provide access to D&T proprietary information and tools that offer technical support and advice), checklists, research reports, surveys, published books and other materials, applications, local office seminars, the Deloitte Accounting Research Tool (DART), and CXO conferences (collectively, "programs and subscriptions"). D&T may provide these programs and subscriptions free of charge, for a nominal fee, or for a fee at prevailing market rates. In some instances, D&T may include complimentary rooms or meals as part of programs or seminars. Any programs and subscriptions requested by the Company or its affiliates and the related fees (if any) would be subject to the mutual agreement of the Company or its affiliates, as applicable, and D&T and may be described in a separate written agreement. The Company hereby confirms that any use or receipt by the Company or its affiliates of these programs and subscriptions is approved by the Audit Committee in accordance with the Audit Committee's established preapproval policies and procedures.

Independence Matters

In connection with our engagement, D&T, management, and the Audit Committee will assume certain roles and responsibilities in an effort to assist D&T in maintaining independence and ensuring compliance with the securities laws and regulations. D&T will communicate to its partners, principals, and employees that the Company is an attest client. Management of the

Docusign Envelope ID: E6AF30D8-7134-490C-A054-6A4709E8FE61

Company will ensure that the Company, together with its subsidiaries and other entities that comprise the Company for purposes of the consolidated financial statements, has policies and procedures in place for the purpose of ensuring that neither the Company nor any such subsidiary or other entity will act to engage D&T or accept from D&T any service that either has not been subjected to their preapproval process or that under SEC or other applicable rules would impair D&T's independence. All potential services are to be discussed with Mr. Lee.

In connection with the foregoing, the Company agrees to furnish to D&T and keep D&T updated with respect to (1) a corporate tree that identifies the legal names of Eversource's and the Entities' affiliates, including affiliates as defined in SEC Rule 2-01(f)(4) of Regulation S-X, and Subsidiaries' affiliates, as defined in *AICPA Code of Professional Conduct* (e.g., parents, subsidiaries, investors, or investees), together with the ownership relationship among such entities; (2) the legal names of any individuals and/or entities that are (i) beneficial owners of the Company or its affiliates that have significant influence over the Company, (ii) officers and directors of the Company or its affiliates in a decision-making capacity at the Company, and (iii) in financial reporting oversight roles at the Company and its material consolidated subsidiaries; and (3) any equity or debt securities of the Company and its affiliates (including, without limitation, tax-advantaged debt of such entities that is issued through governmental authorities) that are available to individual investors (whether through stock, bond, commodity, futures or similar markets in or outside of the United States, or equity, debt, or any other securities offerings), together with related securities identification information (e.g., ticker symbols or CUSIP®, ISIN®, or Sedol® numbers). The Company acknowledges and consents that such information may be treated by D&T as being in the public domain.

Management will coordinate with D&T to ensure that D&T's independence is not impaired by hiring former or current D&T partners, principals, or professional employees for certain positions. Management of the Company will ensure that the Company, together with its subsidiaries and other entities that comprise the Company for purposes of the consolidated financial statements, also has policies and procedures in place for purposes of ensuring that D&T's independence will not be impaired by hiring a former or current D&T partner, principal, or professional employee in an accounting role or financial reporting oversight role that would cause a violation of securities laws and regulations. Any employment opportunities with the Company for a former or current D&T partner, principal, or professional employee should be discussed with Mr. Lee before entering into substantive employment conversations with the former or current D&T partner, principal, or professional employee, if such opportunity relates to serving (1) as chief executive officer, controller, Chief Financial Officer, chief accounting officer, or any equivalent position for the Company or in a comparable position at a significant subsidiary of the Company; (2) on the Company's board of directors; (3) as a member of the Audit Committee; or (4) in any other position that would cause a violation of securities laws and regulations.

For purposes of the preceding five paragraphs, "D&T" shall mean Deloitte & Touche LLP and its subsidiaries; Deloitte Touche Tohmatsu Limited, its member firms, the affiliates of Deloitte & Touche LLP, Deloitte Touche Tohmatsu Limited and its member firms; and, in all cases, any successor or assignee.

Docusign Envelope ID: E6AF30D8-7134-490C-A054-6A4709E8FE61

APPENDIX F

COMMUNICATIONS WITH THE AUDIT COMMITTEE AND THE CHIEF FINANICIAL OFFICER

This Appendix F is part of the engagement letter dated April 6, 2026, between Deloitte & Touche LLP and Eversource Energy and acknowledged and agreed to by the Audit Committee of Eversource Energy.

Independence Communications

We have the responsibility to comply with the rules and standards of the PCAOB and the securities laws and regulations administered by the SEC regarding auditor independence. To demonstrate compliance with those requirements and in accordance with PCAOB Ethics and Independence Rule 3526, *Communication with Audit Committees Concerning Independence* ("Rule 3526"), we will describe to the Audit Committee, in writing, all relationships between D&T and Eversource, the Entities, their affiliates, or persons in "financial reporting oversight roles" (as defined in SEC Rule 2-01 of Regulation S-X) at Eversource or the Entities, that may reasonably be thought to bear on our independence and affirm to the Audit Committee in such communication whether we are independent of Eversource and the Entities within the meaning of the rules and standards of the PCAOB and the securities laws and regulations administered by the SEC. We also will discuss our independence with the Audit Committee in accordance with Rule 3526. For purposes of this paragraph, "D&T" shall mean Deloitte & Touche LLP and its subsidiaries; Deloitte Touche Tohmatsu Limited, its member firms, the affiliates of Deloitte & Touche LLP, Deloitte Touche Tohmatsu Limited and its member firms; and, in all cases, any successor or assignee.

Other Communications Arising from the Audits or Interim Reviews

Fraud and Illegal Acts - Eversource and the Entities

We will report directly to the Audit Committee any fraud of which we become aware that involves senior management and any fraud (whether caused by senior management or other employees) of which we become aware that causes a material misstatement of the financial statements or interim financial information of Eversource or the Entities. We will report to senior management any fraud perpetrated by lower level employees of which we become aware that does not cause a material misstatement of the financial statements or interim financial information of Eversource or the Entities; however, we will not report such matters directly to the Audit Committee, unless otherwise directed by the Audit Committee.

We will inform the appropriate level of management of Eversource and the Entities and determine that the Audit Committee is adequately informed with respect to illegal acts that have been detected or have otherwise come to our attention during the course of our audit or interim reviews, unless the illegal acts are clearly inconsequential.

Docusign Envelope ID: E6AF30D8-7134-490C-A054-6A4709E8FE61

Fraud and Illegal Acts - the Subsidiaries

In connection with the foregoing, we will communicate to the Chief Financial Officer and the Audit Committee any fraud we identify or suspect that involves (1) management, (2) employees of the Subsidiaries who have significant roles in internal control, or (3) other employees of the Subsidiaries when the fraud results in a material misstatement of the financial statements of the Subsidiaries. In addition, we will communicate with the Chief Financial Officer any other matters related to fraud that are, in our professional judgment, relevant to their responsibilities. We will communicate to management any fraud perpetrated by lower-level employees of which we become aware that does not result in a material misstatement of the financial statements of the Subsidiaries; however, we will not communicate such matters to the Chief Financial Officer, unless otherwise directed by the Chief Financial Officer.

We will also communicate to the Chief Financial Officer matters involving the Subsidiaries' noncompliance with laws and regulations that have come to our attention during the course of our audit, other than when such matters are clearly inconsequential.

Significant Matters - Audits of the Subsidiaries

We are responsible for communicating with the Chief Financial Officer significant matters related to the audits that are, in our professional judgment, relevant to the responsibilities of the Chief Financial Officer in overseeing the financial reporting process.

Internal Control Matters - Integrated Audit

We will communicate in writing to management and the Audit Committee all material weaknesses (as defined in the PCAOB Standards) identified during the audit. We will also communicate in writing to the Audit Committee all significant deficiencies (as defined in the PCAOB Standards) identified during the audit. If we conclude that the oversight of Eversource's external financial reporting and internal control over financial reporting by the Audit Committee is ineffective, we will also communicate that conclusion in writing to Eversource's board of trustees.

In addition, we will communicate to management in writing all deficiencies in internal control over financial reporting (i.e., those deficiencies in internal control over financial reporting that are of a lesser magnitude than material weaknesses) identified during the audit and inform the Audit Committee when such communication has been made. When making this communication, we will not repeat information about deficiencies that has been included in previously issued written communications, whether those communications were made by us, internal auditors, or others within Eversource.

Internal Control Matters - Audits of the Entities

We will communicate in writing to the Audit Committee, and the Entities' management all significant deficiencies and material weaknesses (as defined in the PCAOB Standards) identified during the audits. If we become aware that the oversight of the Entities' external financial reporting and internal control over financial reporting by the Audit Committee is ineffective, we will communicate that information in writing to Eversource's board of trustees.

Docusign Envelope ID: E6AF30D8-7134-490C-A054-6A4709E8FE61

Internal Control Matters - Audits of the Subsidiaries

We will also communicate in writing to the Chief Financial Officer, and the Subsidiaries' management any significant deficiencies or material weaknesses (as defined in generally accepted auditing standards) that we have identified during the audits, including those that were remediated during the audit.

Other Matters

We will communicate matters required by PCAOB Auditing Standard 1301, *Communications with Audit Committees*, and SEC Rule 2-07 of Regulation S-X prior to Eversource or the Entities filing our report or consent with the SEC.

In addition, at the request of the Audit Committee, we will provide the Audit Committee with a report in connection with the New York Stock Exchange Corporate Governance Listing Standards.

In connection with the audits of the Subsidiaries, generally accepted auditing standards do not require us to design procedures for the purpose of identifying other matters to communicate with the Chief Financial Officer. However, we will communicate to the Chief Financial Officer, matters required by *AICPA AU-C 260, The Auditor's Communication with Those Charged with Governance*.

Interim Reviews

At the Audit Committee's request, we will not issue a written review report upon completion of our interim reviews; however, we will communicate to Eversource's and the Entities' management and, if appropriate, the Audit Committee matters that cause us to believe that (1) material modifications should be made to the interim financial information for it to conform with generally accepted accounting principles, (2) modifications to management's disclosures about changes in internal control over financial reporting are necessary for management's certifications to be accurate and to comply with the requirements of Section 302 of the Sarbanes-Oxley Act of 2002 and related SEC rules and regulations, or (3) Eversource or the Entities filed the Form 10-Q before the completion of our review. When conducting our interim reviews, we will also determine whether any other matters required by regulations or the PCAOB Standards as they relate to interim financial information have been identified. If such matters have been identified, we will communicate them to the Audit Committee prior to the filing of interim financial information with the SEC.

APPENDIX H

GENERAL BUSINESS TERMS

This Appendix H is part of the engagement letter to which these terms are attached (the engagement letter, including its appendices, the "engagement letter") dated April 6, 2026, between Deloitte & Touche LLP and Eversource Energy and acknowledged and agreed to by the Audit Committee of Eversource Energy.

1. Independent Contractor. D&T is an independent contractor and D&T is not, and will not be considered to be, an agent, partner, fiduciary, or representative of the Company or the Audit Committee.

2. Survival. The agreements and undertakings of the Company and the Audit Committee contained in the engagement letter will survive the completion or termination of this engagement.

3. Assignment and Subcontracting. Except as provided below, no party may assign any of its rights or obligations (including, without limitation, interests or claims) relating to this engagement without the prior written consent of the other parties. The Company and the Audit Committee hereby consent to D&T subcontracting a portion of its services under this engagement to any affiliate or related entity, whether located within or outside of the United States. Professional services performed hereunder by any of D&T's affiliates or related entities shall be invoiced as professional fees, and any related expenses shall be invoiced as expenses, unless otherwise agreed.

4. Severability. If any term of the engagement letter is unenforceable, such term shall not affect the other terms, but such unenforceable term shall be deemed modified to the extent necessary to render it enforceable, preserving to the fullest extent permissible the intent of the parties set forth herein.

5. Force Majeure. No party shall be deemed to be in breach of the engagement letter as a result of any delays or non-performance directly or indirectly resulting from circumstances or causes beyond its reasonable control, including, without limitation, fire, epidemic or other casualty, act of God, strike or labor dispute, war or other violence, or any law, order or requirement of any governmental agency or authority.

6. Confidentiality. To the extent that, in connection with this engagement, D&T comes into possession of any confidential information of the Company, D&T shall not disclose such information to any third party without the Company's consent, using at least the same degree of care as it employs in maintaining in confidence its own confidential information of a similar nature, but in no event less than a reasonable degree of care. The Company and the Audit Committee hereby consent to the disclosure of such information (1) as may be required by law or regulation, or to respond to governmental inquiries, or in accordance with applicable professional standards or rules, or in connection with litigation or arbitration pertaining hereto; (2) to the extent such information (i) is or becomes publicly available other than as the

Docusign Envelope ID: E6AF30D8-7134-490C-A054-6A4709E8FE61

result of a disclosure in breach hereof, (ii) becomes available to D&T on a nonconfidential basis from a source that D&T believes is not prohibited from disclosing such information to D&T, (iii) is already known by D&T without any obligation of confidentiality with respect thereto, or (iv) is developed by D&T independently of any disclosures made to D&T hereunder; or (3) to (i) D&T and its affiliates and contractors for use in connection with providing administrative, infrastructure, and other support services to D&T and its affiliates, (ii) D&T and its subcontractors for use in connection with providing the services hereunder, and (iii) Deloitte Entities and their contractors for use in connection with the development and enhancement of tools and services of Deloitte Entities, in each case, whether located within or outside of the United States, provided they have agreed to be bound by confidentiality obligations similar to those in this paragraph. Deloitte Entities may also use or disclose any information to provide services or client offerings to current or prospective clients provided that information is not used or disclosed in a way that would permit the Company to be identified by third parties, without the Company's consent. "Deloitte Entities" shall mean any member firm of Deloitte Touche Tohmatsu Limited and its affiliates bound by confidentiality terms similar to the paragraph above.

To the extent that any information obtained by D&T from or on behalf of the Company or its employees in connection with the performance of services under the engagement letter relates to a resident of Massachusetts and constitutes "Personal Information" as defined in 201 CMR 17.02 (as may be amended), D&T shall comply with the obligations of 201 CMR 17.00 et. seq. (as may be amended), entitled "Standards for the Protection of Personal Information of Residents of the Commonwealth," with respect to such information.

7. Data Privacy.

(a) For purposes of these terms, the following definitions apply:

"Personal Information" means any information received from, or on behalf of, the Company by D&T in its performance of services under the engagement letter (the "services") that is capable of individually identifying a natural person or is otherwise defined as "personal information" under applicable privacy laws.

"Personal Information Breach" means D&T's confirmation of unauthorized access to, or unauthorized use or disclosure of, Personal Information under D&T's possession or control that compromises the security, confidentiality or integrity of such Personal Information.

"Processing" means any operation or set of operations performed on Personal Information, such as accessing, obtaining, storing, retaining, selling, sharing, combining, transmitting, using, maintaining, disclosing or disposing of Personal Information.

(b) D&T shall comply with the privacy laws applicable to it in connection with the performance of the services. D&T shall only Process Personal Information in connection with its performance of the services, or as otherwise permitted under the engagement letter or these terms or as required by applicable law or professional standards. Taking into account the nature of the Personal Information being Processed, D&T shall have in place reasonable technical and organizational measures designed to (i) provide a level of security

Docusign Envelope ID: E6AF30D8-7134-490C-A054-6A4709E8FE61

appropriate to the risks, and (ii) assist the Company in responding to consumer rights requests. Upon written request, D&T shall make available information with respect to D&T's Processing of Personal Information to: (i) demonstrate D&T's compliance with its obligations in this paragraph, which may take the form of an independent third-party certificate or audit report, or other relevant documentary information; and (ii) reasonably cooperate with the Company in fulfilling its obligations under applicable privacy laws, such as responding to Personal Information requests of individuals, maintaining the security of Personal Information, conducting privacy impact assessments, and consulting with applicable regulatory authorities. Unless otherwise required in connection with the services, D&T agrees that it will not re-identify any de-identified data it receives from or on behalf of the Company. D&T agrees that, upon written notice, the Company may take reasonable and appropriate steps to stop and remediate D&T's unauthorized use of Personal Information. D&T will notify the Company, to the extent required by law, if D&T makes a determination that it can no longer meet its obligations with respect to Personal Information under applicable privacy laws. To the extent required by applicable privacy laws, D&T certifies that it understands and agrees to comply with its privacy obligations set forth herein.

(c) In the event of a Personal Information Breach, D&T shall promptly and within any timeframe governing D&T's notification obligation under applicable law inform the Company's primary business contact for the services of such Personal Information Breach and shall provide to the Company additional information relating to the Personal Information Breach reasonably requested by the Company, to the extent then known by D&T, including information required for the Company to provide any notices required by applicable law.

(d) D&T shall require that its personnel and subprocessors which Process Personal Information are subject to duties of confidentiality consistent with these terms. D&T may not use subprocessors to Process Personal Information without the prior written consent of the Company. The Company hereby consents to the Processing of Personal Information by the following subprocessors: (i) subcontractors authorized to provide services under the engagement letter in order to perform the services, and (ii) contractors to the extent necessary, in connection with providing administrative, infrastructure, and other support services to D&T. D&T shall enter into a written contract with each of its subprocessors consistent with the privacy obligations in this paragraph.

(e) Upon the Company's written request, D&T shall delete or return Personal Information that it maintains. Notwithstanding the foregoing, D&T shall have the right to retain copies of such Personal Information to the extent required by applicable law or professional standards, provided that D&T complies with the privacy obligations in this paragraph.

(f) Description of Processing attached hereto as Appendix H: Exhibit 1 sets forth certain details regarding D&T's Processing of Personal Information in connection with this engagement.

8. Dispute Resolution. Any controversy or claim between the parties arising out of or relating to the engagement letter or this engagement (a "Dispute") shall be resolved by mediation or binding arbitration as set forth in the Dispute Resolution Provision attached hereto as

Docusign Envelope ID: E6AF30D8-7134-490C-A054-6A4709E8FE61

Appendix I and made a part hereof, provided however, that in the event a third party commences an action against the Company or D&T, nothing set forth herein shall prevent the Company or D&T, as the case may be, from asserting a claim against the other party in the action commenced by the third party.

Nature and purpose(s) of the Processing: D&T Processes Personal Information in the context of providing the services.

Duration of Processing: While performing the services and as required by applicable laws and professional standards.

Docusign Envelope ID: E6AF30D8-7134-490C-A054-6A4709E8FE61

APPENDIX I

DISPUTE RESOLUTION PROVISION

This Appendix I is part of the engagement letter dated April 6, 2026, between Deloitte & Touche LLP and Eversource Energy and acknowledged and agreed to by the Audit Committee of Eversource Energy.

This Dispute Resolution Provision sets forth the dispute resolution process and procedures applicable to the resolution of Disputes and shall apply to the fullest extent of the law, whether in contract, statute, tort (such as *negligence*), or otherwise.

Mediation: All Disputes shall be first submitted to nonbinding confidential mediation by written notice to the parties, and shall be treated as compromise and settlement negotiations under the standards set forth in the Federal Rules of Evidence and all applicable state counterparts, together with any applicable statutes protecting the confidentiality of mediations or settlement discussions. If the parties cannot agree on a mediator, the International Institute for Conflict Prevention and Resolution ("CPR"), at the written request of a party, shall designate a mediator.

Arbitration Procedures: If a Dispute has not been resolved within 90 days after the effective date of the written notice beginning the mediation process (or such longer period, if the parties so agree in writing), the mediation shall terminate and the Dispute shall be settled by binding arbitration to be held in New York, New York. The arbitration shall be solely between the parties and shall be conducted in accordance with the CPR Rules for Non-Administered Arbitration that are in effect at the time of the commencement of the arbitration, except to the extent modified by this Dispute Resolution Provision (the "Rules").

The arbitration shall be conducted before a panel of three arbitrators. Each of the Company and Deloitte & Touche LLP shall designate one arbitrator in accordance with the "screened" appointment procedure provided in the Rules, and the two party-designated arbitrators shall jointly select the third in accordance with the Rules. No arbitrator may serve on the panel unless he or she has agreed in writing to enforce the terms of the engagement letter (including its appendices) to which this Dispute Resolution Provision is attached and to abide by the terms of this Dispute Resolution Provision. Except with respect to the interpretation and enforcement of these arbitration procedures (which shall be governed by the Federal Arbitration Act), the arbitrators shall apply the laws of the State of New York (without giving effect to its choice of law principles) in connection with the Dispute. The arbitrators may render a summary disposition relative to all or some of the issues, provided that the responding party has had an adequate opportunity to respond to any such application for such disposition. Discovery shall be conducted in accordance with the Rules.

All aspects of the arbitration shall be treated as confidential, as provided in the Rules. Before making any disclosure permitted by the Rules, a party shall give written notice to all other parties and afford such parties a reasonable opportunity to protect their interests. Further, judgment on the arbitrators' award may be entered in any court having jurisdiction.

Docusign Envelope ID: E6AF30D8-7134-490C-A054-6A4709E8FE61

Costs: Each party shall bear its own costs in both the mediation and the arbitration; however, the parties shall share the fees and expenses of both the mediators and the arbitrators equally.

Docusign Envelope ID: E6AF30D8-7134-490C-A054-6A4709E8FE61

APPENDIX J

FINANCIAL STATEMENT AUDITS AND REPORTS EXPECTED TO BE RENDERED

This Appendix J is part of the engagement letter dated April 6, 2026, between Deloitte & Touche LLP and Eversource Energy and acknowledged and agreed to by the Audit Committee of Eversource Energy.

1) Audit Reports on Annual Financial Statements and Financial Statement Schedules Incorporated by Reference in the Form 10-K and Reviews of Information Included in Forms 10-Q (the Entities) (Note 1):

    - The Connecticut Light and Power Company
    - NSTAR Electric Company
    - Public Service Company of New Hampshire

2) Audit Reports on Annual Financial Statements (Note 2):

    - Yankee Gas Services Company
    - NSTAR Gas Company
    - Eversource Gas Company of Massachusetts

3) Audit Reports on Annual Financial Statements Included in Federal Energy Regulatory Commission Forms (Note 2):

    - The Connecticut Light and Power Company
    - NSTAR Electric Company
    - Public Service Company of New Hampshire
    - Yankee Gas Services Company (FERC Form 2)

4) Audit Reports on Annual Financial Statements and Other Information Derived from Regulatory Basis Financial Statements Included in The Connecticut Department of Public Utilities Control Report (Note 2):

    - The Connecticut Light and Power Company
    - Yankee Gas Services Company

REDACTED

Docusign Envelope ID: E6AF30D8-7134-490C-A054-6A4709E8FE61

Note: (1) Our audit will be conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States).

(2) Our audit will be conducted in accordance with generally accepted auditing standards as established by the Auditing Standards Board (United States).
