Date Filed: October 16, 2026

Witness: Donald J. Scacco Jr., Christopher E. Colorio, Mark P. Baldwin, John G. Griffin and Leanne M. Landry
Request from: Office of Consumer Counsel

Question:

(Storm costs) Please provide an excel workbook with all of the following data points for each of the 14 catastrophic storm events in the 2025-2025 period the Company is seeking recovery for in this proceeding, as well as all the catastrophic storm events that were authorized for recovery in Docket 25-12-13 for the 2018-2023 time period:

a. Did the storm qualify as a Major Event Day designation under the IEEE Major Event Day methodology (2.5 Beta Method)? (yes or no)
b. What was the corresponding ERP level (Level 1-5) for each storm event as outlined in the Company's Emergency Response Plan?
c. What was the count of customers whose service was interrupted by the storm event?
d. Would the storm have met the 1% materiality threshold as calculated in OCC-6(a) (yes or no)?
e. The total cost of each storm event.

Response:

The Company calculates the annual IEEE 1366 TMED (Threshold Major Event Day) value in accordance with the methodology prescribed by IEEE Std. 1366. The annual TMED threshold values for the 2018-2025 period are presented in the table below. A calendar day is classified as an IEEE Major Event Day (MED) if the daily SAIDI exceeds the applicable annual TMED threshold for that year.

Historical TMED Thresholds

YEAR	TMED Threshold
2018	2.4653
2019	2.8369
2020	3.0301
2021	4.0733
2022	4.0468
2023	3.9719
2024	3.3314
2025	3.1844

Please refer to OCC-903, Attachment 1, for a listing of storm events along with the requested data.
