November 2025 All Customer Email: Heating Awareness Month

EVERSOURCE

Get Help. Stay Warm.

Ver version en español.

During Heating Assistance Awareness Month, we're partnering with local communities to raise awareness of the programs available to help pay or lower heating bills, and to keep homes warm this winter including:

State Assistance Program

- ✓ Apply to get up to $645 towards your heating bill from the Connecticut Energy Assistance Program (CEAP). Apply for CEAP online or visit your local Community Action Agency. You may also find your closest agency by calling 211.

Protection Plan

- ✓ If you provide proof of qualifying household income or public assistance benefits you receive, your service cannot be shut off between Nov. 1 and May 1 with Winter Protection.

Energy Efficiency

- ✓ We're here to connect you with energy efficiency solutions to heat your home for less. Improve your home's efficiency and enjoy lasting comfort through every season with proper insulation and air sealing. Through Home Energy Solutions℠, you may receive a home energy assessment with on-the-spot services including air sealing. You may also qualify for up to 75% off approved insulation upgrades, low-interest financing opportunities and other incentives for energy efficiency improvements.

If you or someone you know is struggling to keep up with energy bills, now is the time to connect with us to get assistance this winter heating season. More information on these and other programs is available at the link below. You can help raise awareness by sharing this important information with friends, neighbors and family who might benefit.
