APPLICATION OF THE CONNECTICUT	:	
LIGHT AND POWER COMPANY	:	DOCKET NO. 26-05-10
D/B/A EVERSOURCE ENERGY	:	
TO AMEND ITS RATE SCHEDULES	:	July 28, 2026

MOTION OF SIERRA CLUB FOR INTERVENOR STATUS

Pursuant to the Authority's Notice dated June 2, 2026 and Conn. Gen. Stat. § 4-177a, Sierra Club respectfully requests intervenor status in the above-captioned contested proceeding before the Connecticut Public Utilities Regulatory Authority (PURA).

Sierra Club is a national non-profit environmental organization with approximately 30,000 members and supporters in Connecticut and over 3.8 million members and supporters nationwide. Sierra Club's mission is to promote the responsible use of the earth's ecosystems and resources and to protect and restore the quality of the natural and human environment; and to use all lawful means to carry out those objectives. Consistent with its mission, Sierra Club and its members are interested in pursuing electric system planning that is in line with Connecticut's climate policies and goals. Sierra Club's members rely on the organization to support their dual interest in the cost-effective provision of electricity and in the promotion of their environmental and climate policy objectives. In the context of electric rate proceedings before state public utility commissions, the Sierra Club works to promote its ratepayer members' interest in bill-sensitive policies that further their environmental and climate objectives.

Sierra Club's intervention will benefit this proceeding by providing relevant and material information and expertise. Sierra Club works throughout the country to decarbonize the electric sector and promote electrification of heating and transportation in a just and equitable manner that protects ratepayers. Sierra Club routinely engages at the state level and participates before public service commissions and in other forums to support strategies to cost-effectively and justly achieve these goals. Sierra Club has been extensively involved in rate proceedings before state public utility commissions across the country, including in California, Colorado, Connecticut, the District of Columbia, Massachusetts, New York, Oregon, Pennsylvania, and Washington. In Connecticut, Sierra Club participated as an intervenor in Docket No. 23-11-02, concerning the applications of Connecticut Natural Gas Corporation and the Southern Connecticut Gas Company to amend their rate schedules. Sierra Club further participated in proceedings before PURA relating to the state's electric vehicle charging program in Docket Nos. 17-12-03RE04 and 21-09-17. Sierra Club also contributed as a participant in Docket No. 13-06-02RE05 and as an intervenor in Docket No. 21-08-24, which concerned the state's gas system expansion plan.

Because of its expertise in public utility dockets regarding electric system planning and rate proposals, the Sierra Club's contributions as a participant in this docket will materially assist the Department in its investigation and determinations herein. As an intervenor the Sierra Club

intends to present evidence relating to the impacts of Eversource's proposal on the electric distribution system and on ratepayers. Sierra Club also intends to present evidence relating to whether the application is consistent with Connecticut's climate and energy policies and relating to the equity and distributional impacts of the application. Sierra Club seeks to participate in all aspects of this case, including, as it deems necessary, the presentation of testimony, cross-examination of witnesses, and participation in briefing, conferences, and hearings. Relief sought will include consideration of the above-described issues and others relating to the instant proposal, with an outcome that protects both ratepayers and the environment.

PURA should grant Sierra Club's Motion for Intervenor Status for the reasons explained above. Sierra Club possesses relevant and material expertise regarding the subject matter of this docket and has an interest in representing the concerns of its membership in this proceeding. It is therefore "in the interest of justice and will not impair the orderly conduct of the proceedings" to grant this motion. Conn. Gen. Stat. § 4-177a(b).

Sierra Club requests that copies of all notices, decisions, and other relevant filings in this proceeding be served on the following:

Sarah Krame
Sierra Club
50 F St. NW, 8th Floor
Washington, DC 20001
