To whom it may concern,
My family and I are very troubled by the proposed rate hikes for Eversource. We already pay among the highest electricity costs in the U.S. Eversource is a highly profitably company, and its CEO was paid over $15 million last year.

We request transparency on Eversource's storm related costs, and we also request them to hold a hearing in the town of Greenwich to explain to us why the rate increase of necessary.

As customers with no other options, we cannot be asked to shoulder this burden without transparency.

Sincerely,

Isaac Barrocas
