PROPOSED FINAL DECISION

This proposed final Decision is being distributed to the parties in this proceeding for comment. The proposed Decision is not final. The Authority will consider the parties' arguments and exceptions before reaching a final Decision, which may differ from the proposed Decision. Therefore, this proposed Decision does not establish any precedent and does not necessarily represent the Authority's final conclusion.

PROPOSED FINAL DECISION

I. INTRODUCTION

A. SUMMARY

In this Decision, the Public Utilities Regulatory Authority determines that the solar generation facility located at 107 +145 Grissom Lane in Claremont, New Hampshire qualifies as a Class I renewable energy source.

B. BACKGROUND OF THE PROCEEDING

By Application received September 17, 2026 (Application), Kearsarge Grissom, LLC (Company) requests that the Public Utilities Regulatory Authority (Authority) determine that the solar generation facility (Facility or Project) qualifies as a Class I renewable energy source.

C. CONDUCT OF THE PROCEEDING

There is no statutory requirement for a hearing, no person requested a hearing, and none was held.

D. PARTICIPANTS

The Authority recognized the following as Participants to this proceeding: Kearsarge Grissom, LLC, 1380 Soldiers Field Road, Suite 3900, Boston, MA 02135; the Office of Consumer Counsel, Ten Franklin Square, New Britain, CT 06051; and the Commissioner of the Department of Energy and Environmental Protection, 79 Elm Street, Hartford, CT 06106.

II. STANDARD REVIEW

Pursuant to General Statutes § 16-1(a)(20), “Class I renewable energy source” includes energy derived from solar power.

III. AUTHORITY ANALYSIS

As provided in the Application, the Facility generates electricity using solar power. The Project began commercial operation on August 28, 2026, and has an installed capacity of 4.99 MW. The Facility's NEPOOL GIS Identification Number is NON229349. The Project is a behind-the-meter generation facility located in New Hampshire, which is within the control area of the ISO-NE. AlsoEnergy, Inc. is the third-party verifier of the electricity produced.

IV. CONCLUSION

The Authority reviewed all information in the record and finds that pursuant to General Statutes § 16-1(a)(20), the Facility qualifies as a Class I renewable energy source, effective August 28, 2026. The Authority assigns the Facility Connecticut Renewable Portfolio Standard Registration No. CT260910.

The Authority's determination in this docket is based on the information submitted by the Company. The Authority may reverse its ruling or revoke the Company's registration if any material information provided proves to be false or misleading. The Company is reminded that it is obligated to notify the Authority within 10 days of any changes to any of the information it has provided.
