Good afternoon,

I am submitting a public comment regarding Eversource's commercial card payment fees under Docket No. 26-05-10.

As a new small business owner in Hartford Connecticut, I am disappointed that commercial customers are charged an additional $11.40 to pay their electric bills by credit or debit card while residential customers are included in a fee free card payment program.

It cost us $136.80 a year for our business to simply pay by card. I don't believe small businesses should have to sacrifice the convenience of card payments to avoid additional charges. My self and my partner work fulltime jobs to keep this business in the community and every dollar we make goes back to the business and every dollar counts for us. Including the additional fees to simply pay our bills.

Im requesting that PURA considers extending the fee free credit and debit card payment program to commercial customers and eliminate the additional processing fee.

Thank you for your consideration.
