Docket No. 26-05-10

Evan Kasack
147 Country Club Rd
Cheshire, CT 06410
Hello,
Enough is enough with more rate hikes that are unaffordable for all. Well, for those who are paying the already inflated rates. Many of us are making hard decisions on how to reduce our family budgets to make ends meet just to pay for the essentials now. The people have had it with increases after increase with no plans for streamlining and reducing costs and practices that produce savings for the rate payers.

Your increase aren't justified, your cost saving practices have been slim to none and most of the other areas of the Country don't have these unaffordable rates. Why should we. We need better oversight to compare these exorbitant rates.
I'm asking that we increase the oversight and start looking at why the current policies and rate requests are so much more and unaffordable as compared to most other states around the country.
Do we really need these double percentage increases, I don't think so if you look closely.
Thank you,

Evan Kasack
