To whom it may concern:
I've been a resident of Connecticut for 30 years, I am writing you today for my concern of the rate increases with Eversource. I am asking you to stop the rate increase. The electric bill is already to high and i struggle to pay it each month. With the rate increase I would have to go hungry in order to afford my electric bill. These rates are high enough. Eversource is the only electric provider of the state and they are already making record profits. I think the citizens of the state of Connecticut deserve some dignity in being able to eat and afford throw bills.
Please do not support and help this rate increase.
Thank you for your time and consideration.
