Public Educational and Governmental Programming and Education Technology Investment Account (PEGPETIA) Grant Program Application & Itemized Budget

Instructions for Filing a Motion to Apply for a PEGPETIA Grant

Motion Deadline

The Public Utilities Regulatory Authority (Authority or PURA) oversees a program to award Public Educational and Governmental Programming Grants (PEG Grants) and Education Technology Investment Grants (ETI Grants) to eligible entities. See General Statutes § 16-331cc. **This PEGPETIA Grant Program Application must be filed as a motion in Docket No. 26-10-02 no later than noon on November 20, 2026.**

Program Funding Eligibility

PEG grant funding is intended to improve public, educational, and governmental access programming in Connecticut, and funds should be used for capital and equipment costs that aid the production or procurement of public, educational, and governmental programs. To ensure the funding is used appropriately, after completion of the project, PEG grant recipients must file a report of the project enabled by the grant funds.

ETI grant funding is intended to support education technology initiatives of boards of education and other education entities (public and private schools are eligible to apply). To ensure the funding is used appropriately, after completion of the project, ETI grant recipients must file a report of the project enabled by the grant funds.

Submission of Motion

Applicants must complete and file the Application with Itemized Budget electronically to PURA as a motion in Docket No. 26-10-02, at https://portal.ct.gov/pura/about/filing-and-forms/make-an-electronic-filing. Applicants who have not previously registered must first register for an account.

Motions must include an Application and Itemized Budget for the projects to be funded by the grant. Quotes, invoices, or similar documentation must be submitted for each item to be purchased with grant funds.

The motion will be assigned a unique motion number after it is filed. The allowable electronic filing size is 20 MB. If the motion's attachments (Application with Itemized Budget plus other attachments) exceed the allowable limit, the motion may include only the completed Application with Itemized Budget, and the remaining attachments must be filed as supplemental filings to the same motion. Subsequent supplements must also be filed as supplemental filings under the assigned motion number.

Questions regarding the electronic filing of the motion and supplements should be directed to Docket Control at PURA.ExecutiveSecretary.gov or (860) 827-2836.

Note: If you have received a grant in any of the dockets listed above, you must submit any outstanding compliance filings prior to submitting this application.

III. Investment or Initiative Eligibility

12. Provide a description of proposed capital and equipment investment or education technology initiative. State expected enhancements to PEG programming or education technology. If applicable, state why similar equipment is not available from the local community access studio (PEG only).

Hebron Public Schools is continuing to replace our aging Smartboards with Viewsonic 75in Interactive Displays. Over the last few years, a combination of Pegpetia and Board funding has allowed the district to replace boards at Gilead Hill School. Last year we started replacing these devices at Hebron Elementary School.

These board are used daily by teachers for student instruction. All teachers in the schools have experience using interactive boards and these skills translate well between different brands with only minimal training.

These boards are appealing to the district as they are smaller than our older SmartBoards, require less cords and wiring and are brighter with a clearer picture.

13. Identify the affected geographical area(s) and/or school system(s) that will benefit from the investment or initiative:

Hebron Public Schools, Hebron CT

14. State the number of subscribers served or students impacted:

706

15. List the schedule for implementation, including estimated dates for key milestones and completion.

Note: Completed projects are not eligible.

Equipment would be purchased as soon as funding is received. The district can be very flexible with installation. Ideally if equipment is delivered before our April break in (April 12-16), custodial staff can install during this time. Otherwise installation will happen one room at a time by second shift custodial staff.

Training will be performed by district IT staff at grade level meetings, during after school PD hours, or 1 on 1 as necessary.

16. Identify objective performance measures that can be used to evaluate the success or effectiveness of the investment or initiative:

The primary way the district measures the sucess of this project is via staff satisfaction. These newer devices are still visible when sunlight is on them, allowing teachers more versitility in instruction. They are more compact and allow for a less cluttered classroom.

The secondary way the district measures performance is via help desk tickets. Initially upon install we do see a flurry of new tickets, but once these devices are in use they require minimal support.

17. Description of organization, including experience and competence related to the proposed project:

The district has extensive hands on experience installing and troubleshooting these devices. The district originally brought our first Viewsonic devices in 2022 to demo, and has reached 70% installation in our classrooms. Teachers, paras, and IT staff use the devices daily and are very familiar with them.

Installation is done in house by our facilities team.

IV. Budget Information
