Public Educational and Governmental Programming and Education Technology Investment Account (PEGPETIA) Grant Program Application & Itemized Budget

Instructions for Filing a Motion to Apply for a PEGPETIA Grant

Motion Deadline

The Public Utilities Regulatory Authority (Authority or PURA) oversees a program to award Public Educational and Governmental Programming Grants (PEG Grants) and Education Technology Investment Grants (ETI Grants) to eligible entities. See General Statutes § 16-331cc. **This PEGPETIA Grant Program Application must be filed as a motion in Docket No. 26-10-02 no later than noon on November 20, 2026.**

Program Funding Eligibility

PEG grant funding is intended to improve public, educational, and governmental access programming in Connecticut, and funds should be used for capital and equipment costs that aid the production or procurement of public, educational, and governmental programs. To ensure the funding is used appropriately, after completion of the project, PEG grant recipients must file a report of the project enabled by the grant funds.

ETI grant funding is intended to support education technology initiatives of boards of education and other education entities (public and private schools are eligible to apply). To ensure the funding is used appropriately, after completion of the project, ETI grant recipients must file a report of the project enabled by the grant funds.

Submission of Motion

Applicants must complete and file the Application with Itemized Budget electronically to PURA as a motion in Docket No. 26-10-02, at https://portal.ct.gov/pura/about/filing-and-forms/make-an-electronic-filing. Applicants who have not previously registered must first register for an account.

Motions must include an Application and Itemized Budget for the projects to be funded by the grant. Quotes, invoices, or similar documentation must be submitted for each item to be purchased with grant funds.

The motion will be assigned a unique motion number after it is filed. The allowable electronic filing size is 20 MB. If the motion's attachments (Application with Itemized Budget plus other attachments) exceed the allowable limit, the motion may include only the completed Application with Itemized Budget, and the remaining attachments must be filed as supplemental filings to the same motion. Subsequent supplements must also be filed as supplemental filings under the assigned motion number.

Questions regarding the electronic filing of the motion and supplements should be directed to Docket Control at PURA.ExecutiveSecretary.gov or (860) 827-2836.

Note: If you have received a grant in any of the dockets listed above, you must submit any outstanding compliance filings prior to submitting this application.

III. Investment or Initiative Eligibility

12. Provide a description of proposed capital and equipment investment or education technology initiative. State expected enhancements to PEG programming or education technology. If applicable, state why similar equipment is not available from the local community access studio (PEG only).

In an effort to increase the opportunity of student involvement in technology, this equipment will be set up at our schools to demonstrate the use of technology first hand in the classroom. The interactive displays are an exceptional resource for teachers to directly involve students in the use of technology. This is demonstrated by the act of having the students themselves use the boards with features such as the touch capabilities. This is continued by the teacher's use of the interactive displays when teaching other subjects as it is a multi-purpose device. Students are shown how technology can integrate into many aspects of learning simply by the teacher using the resource during class time. We are already using these interactive displays at many levels and they have proven to be invaluable to teachers and their ability to help teach most effectively. With the addition of these, we will be able to provide the resource for classrooms that have older technology or no technology at all.

13. Identify the affected geographical area(s) and/or school system(s) that will benefit from the investment or initiative:

Wallingford Public Schools in Wallingford CT

14. State the number of subscribers served or students impacted:

Wallingford Public Schools currently has 5,038 registered students

15. List the schedule for implementation, including estimated dates for key milestones and completion.

Note: Completed projects are not eligible.

As soon as we receive funds from the investment we would purchase all of the budget line items right away.
We are looking to install most if not all of the interactive displays over the summer if funding comes in the spring and the vendor can provide them by then.

16. Identify objective performance measures that can be used to evaluate the success or effectiveness of the investment or initiative:

One way to evaluate the success of the use of these interactive displays is in how often we look to expand the number of classrooms with the technology. We have applied the last three years to this grant to purchase more of this type of technology because we know how effect they are in the classroom based off of teacher and student feedback.

17. Description of organization, including experience and competence related to the proposed project:

Wallingford Public Schools ' information technology department handles the technology used at all 12 public schools. This includes but is not limited to laptops, Macbooks, projectors, interactive displays, software, and security. Specifically, we have two Information Technology Technicians who have received and installed dozens of the same type of interactive displays throughout the district. They also are well versed in the use and troubleshooting of said technology and do so regularly as part of their position. We also have a larger dedicated team that has knowledge in things pertaining to information technology and technology in general. This position is competent to execute this equipment investment.

IV. Budget Information

18. Partner organization(s) or other funding sources (if applicable):
N/A

19. Have you completed the PEGPETIA Itemized Budget form below (with an itemized budget for the investment or initiative)?
