80435173	Wells 38-Replace Failing Batteries	We would like to create an annual to replace the batteries at Wells 38 when we go to perform the major maintenance next year. The batteries are marine 12v batteries. Last time replaced was in 2018. And we have corrosion and leakage at the terminals. Approx. $300 each. We would require 6 of them. I have attached the quote here for your review as well. This would be planned distribution. We would require 16 man hours and the price of the batteries. Batteries will be replaced with similar units. $6,385.00 Greg Smuk	Allocations Roll up-Z00	107010	0.8000000
