		This work order was created to accept the charges for the Berlin Training Substation project to continue to modernize / upgrade for increased hands-on training opportunities for field workers and supervisors in a controlled enviroment that is not currently available. This training will simulate real-life experiences without the risk of energized equipment at primary or transmission voltages.			
		The costs will be distributed per below: CT = 85% WMA = 15%			
25TSUBCT	Berlin Training Substation		Joint Line Billing-JL0	107010	1

		Eversource Open Sky data network support critical Distribution Automation applications in CT. These radios have now been manufacturer discontinued. In order to have mobile radios to continue supporting Distribution Automation in CT, a last time buy of radios is needed. A budget of $1.2M was set aside for this purpose as a short-term mitigation to keep the system in operation till a new replacement system is identified as part of the Field Area Network Strategy.
