CTFARM20	CT Meter Farm Project	This work order will capture charges related to the Connecticut Meter Farm being built by Tesco. The purchase order number is 10996182. Iron Riva AMI meters will be installed to test the communication attributes. This test will help decide which type of AMI system should be pursued. The 3 farms cost $94,290.00. All above information provided by George Townsend's e-mail dated 4/10/2020.	Material-M00	107010	1

		This work order is to purchase CT craft school (AWC) tools and equipment for Newtown. Per meeting with D. Chambrello and J. Bradley on 6/7/2023, it was determined a hoist should be capital for Newtown. The amount is $3,280.38 for item number 569917 at a cost of $564.73 per unit. Per M. Greges' e-mail dated 10-24-2023, the following items will be purchased: Item # 521659 ($590.80) and item # 568629 ($2,475.00).			
23CTNWTN	Newtown Tools and Equipment	Per M. Greges' e-mail dated 11-7-2023, a Milwaukee Transfer Pump Utility Kit will be purchased for $631.60. This work order is for CT Technical (Electric) Training to purchase 2 tents for the Berlin training yard. Per M. Greges' e-mail dated 1/20/2023, Hubbell C4030296A Hinged Shotgun/Gripall is being purchased for $537.84. Per D. Chambrello's and M. Greges' e-mails dated 1/26/2023 - requesting the purchase of a control for the new UG switch in the Berlin UG lab. The cost is $4,441.00. DR 634100 Per D. Arbogashi's e-mail dated 1/27/2023, DR 634390 was created for $9,493.30 for capital items. Per M. Greges' e-mail dated 1/31/2023, purchasing 6 potential testers @ $616.29 each for a total of $3,700.00. Per e-mail from M. Greges dated 2/13/2023, item number 534621 is being purchased for the training yard for $1,946.00. Per D. Chambrello's e-mail dated 4/5/2023, equipment (item # 620277) will be purchased for the Berlin training yard and the cost is $6,098.00. Beckwith Capacitor Control (equipment) for the Berlin training yard. About $10,000 per D. Chambrello on 5-3-2023 through Teams call. Per e-mail from M. Greges dated 5-5-2023, item 600895 (recloser) for $4,023.06 will be purchased for the Berlin training yard.

CTDSOC11	New Windsor SOC ITand AV Equipment	A project authorization for $19,994,000 is being requested to fund the IT Scope of Work to support the construction of a new CT Distribution System Operation Center (SOC) at the existing Windsor Facility. The new Windsor SOC will be designed like the Mass Ave Control Room to support a physical layout and system visualization tools that encourage communication and visibility between desks. This model has been identified as an industry best practice. Once constructed, the new Windsor SOC will improve our operational efficiency, meeting NERC-CIP best practices. The audio and video display systems will increase operational awareness and efficiencies to include a Human Performance centric design needed to operate the modern distribution system and the distribution grid of the future. Additionally, the video wall display boards will enhance overall awareness by leveraging current and new graphical user interfaces as they become available; this will enhance operations ability to assess and analyze system events. This PAF scope of work includes the purchase, installation, and configuration of Computer, Audio-Visual, and KVM (Keyboard, Video, and Mouse) equipment which must be purchased to outfit the SOC with technology needed for system operations. 		This work order was created to accept the charges for the Berlin Training Substation project to continue to modernize / upgrade for increased hands-on training opportunities for field workers and supervisors in a controlled enviroment that is not currently available. This training will simulate real-life experiences without the risk of energized equipment at primary or transmission voltages. The costs will be distributed per below: CT = 85% = $300,050 WMA = 15% = $52,950
