F2511009	Install electrical circuits	Newtown - Installation Of Electrical Circuits Electric Maintenance Shop. Due to company growth, the installation of two (2) 20 amp - 120 volt power circuits within the Electric Mainteance Shop. These circuits will be added in order to separate existing loads which currenly is on one (1) power source and keeps tripping the breaker becoming a safety concern.	Material-M00	107010	1

		This work order was created to accept the charges for the Overhead curriculum development project which is a piece of the overall electric curriculum development project (CTMTRTRN) for Field Training. Per Alex Chasson-Colebourn , the vendor (Index AR) quote is $1,400,000 and the vendor (Mosaic) quote is $1,566,000. The internal labor cost is estimated to be $33,333 each month for 18 months. The costs (direct and indirect) will be distributed according to the PAF $4,200,195. CT = 35% = $1,470,068 EMA = 35% = $1,470,068 NH = 20% = $840,039

		We would like to create an annual to replace the batteries at Wells 38 when we go to perform the major maintenance next year. The batteries are marine 12v batteries. Last time replaced was in 2018. And we have corrosion and leakage at the terminals. Approx. $300 each. We would require 6 of them. I have attached the quote here for your review as well. This would be planned distribution. We would require 16 man hours and the price of the batteries. Batteries will be replaced with similar units. $6,385.00
