Date Filed: August 31, 2026

Witness: Jared A. Lawrence
Request from: Office of Consumer Counsel

Question:

For each quantified AMI benefit, provide the native calculation, source data, assumed realization date, benefit owner, and metric used to verify realization

Response:

Please refer to Exhibit CLP-AMI-3, Sections III.B.1 through III.B.9, for the source data and assumptions, assumed benefit realization dates, benefit owners, and metrics used to verify realization for each quantified AMI benefit. The native calculations will be provided with the Company's response to OCC-397 when filed[1].

For each benefit category, Section b. Benefit Calculation Methodology provides the annual calculations, source data, and assumptions; Section c. Business-As-Usual Costs, Benefit Targets, and Annual Benefit Calculation and Section d. Data to Track the Availability of the Benefit identifies the assumed realization timing and metrics used to verify realization. Where the final plan does not identify a separate named benefit owner, the applicable owner should be determined based on the Company business function responsible for tracking the associated realization metric.

[1] The Company requested an extension of time to file OCC-397 until September 7, 2026.
