To whom it may concern:

I'm writing in regards to the Eversource request for a rate increase of $727 million annually. They state that this represents an increase of approximately 50% to the Local Delivery Component of our bill. While I can understand that costs to maintain the electrical system have surely increased and in need of an increase, I can't accept that a 50% increase in this area is acceptable nor affordable for most customers. Please do what is needed to reduce this increase to a more reasonable and affordable amount.

Thank you,

Elizabeth Pierce-Fortin
