Hello, my name is Faythe S I'm a resident in the state of Connecticut.
I've been able to manage my electricity bill fairly well these past few years.
I was informed about an upcoming annual increase for the EVERSOURCE bills.
I've been a customer for a few years now and with the current state of the economy I'm sure myself and other residents could potentially be at a risk with an increase with the electricity. I'm hoping with the community's input the company can put things into consideration- with the hopes of being able to keep the community in a position to continue try and make ends meet at a reasonable financial point without moving forward with the increase
Thank you for your time
