Dear Executive Secretary,
I am filing an objection to the proposed rate increase that Eversource is seeking under Rate 5 Residential Electric Heat. The Distribution Charge per kWh is proposed to increase to $0.09710 from $0.03847. The increase represents a 9.7% compounded annual growth rate, which seems excessive. For comparison purposes, the CPI for New England from 2017 to 2026 increased to 133.8 from 127.4 or a compounded annual growth rate of 0.55%.
I hope that you will be able to persuade Eversource to scale back the aforementioned rate to a more reasonable level.
Thank you,

Leonard J Proscia
