Hello,

My comments on the huge 18% increase in our electric rates that our governor is trying to give to Eversource is absolutely no, and are you kidding? We are all choking with big bills out here. The governor ran on saying he is cutting costs for us and now he wants to approve a huge rate increase to our electricity??? I am a senior. I live on much more of a fixed income than when I was working. It would be a hardship for me to have a huge increase in my electricity bills, so tell the governor, you ran on saying you were going to make things more affordable and now you want to give this huge company an 18% increase at our expense? I think it is insulting that you are even asking for this, so my comments are NO, NO. NO, and No. Do what you said you were going to do and

bring our electricity rates and costs down not up. Don't give your rich pals a huge increase. We will have to start calling you Trump. Those are my comments and I hope you don't disappoint me and everyone else in the state.
Linda Quirici
