i am a nurse and mother/grandmother who recently had to get a second job just to afford electricity! enough is enough. you are bleeding us dry. please say no to an increase and really look into ways to bring these prices down permanently because this is no longer sustainable. for context I make 115k per year and my spouse makes 60k and between gas prices and power we are struggling. my adult daughter cannot move out with her child due to poor affordability.

we are tired.
we need help
