Subject: Re: No more electric rate hikes

Dear Nick,

I share your concern. I have and I continue to oppose rate hikes.

I do not have confidence in the PURA to make the right decisions for the people of Connecticut. The right decision should be about putting first the ratepayers. PURA has a very troubled history of illegalities that were uncovered during court proceedings, shady backroom political deals to renominate the past Chairwoman, and no real record showing that it is putting ratepayers first (despite repeated attempts to say otherwise by the PURA).

My best regards,

Jeff

Subject: No more electric rate hikes

I am writing to express my strong opposition to the proposed rate hikes for Eversource electricity service.

With some of the highest rates in the nation and record profits (net income of $1.69 billion ($4.56 per share), which more than doubled its $811.7 million profit from 2024.) its time to take a stand against the abuse of CT ratepayers. Families are already struggling in CT and we cannot afford higher electricity bills.

Please opposed Eversource requested rate hikes.
