Good Morning Matt,

The Corrective Action Unit (CAU) has reviewed the *Compliance Monitoring Closure Report* dated February 28, 2024. The CAU is not requesting any further remedial actions for this site. However, in order to consider this site in compliance with the RSRs, an LEP verification should be rendered.

Thank you,

Amber Trahan
Environmental Analyst
Corrective Action Unit

Hi Amber
I uploaded the document yesterday for Williams 9L Substation. Based on the groundwater data we can close out Williams 9 L. We can discuss at our next meeting.

Thanks,
Matt

Hi Matt,

If you could send it through the SFT Site that would be great. We are transitioning to using that now for incoming documents.

Thanks,

Amber

Hi Amber
Our consultant is finalizing a groundwater report for Williams St 9L that shows the groundwater is compliant with the RSRs after the PCB remediation. Should I send the report directly to you or through SFT?

Thanks,
Matt
