Jing

Currently, the PCB impacted soils have not been remediated. The on-site areas where S.E.H. concentrations were detected and subsequent S.E.H. notifications were filed with the CTDEEP continue to be secured within locked fencing with signage to prevent unauthorized entry. A formal cleanup plan dated 30 Sept 15 was submitted to EPA - Region 1 and CTDEEP's PCB Program for review/comment. EPA - Region 1 comments on the cleanup plan were recently received and are currently being evaluated.

Any questions or if you need further information, please let me know.

Chris,

Has the PCB-impacted soil been remediated?

Thanks
Jing

As requested, attached are some photographs of the new fencing/signage that were installed in response to the additional S.E.H. locations identified at the Berlin Campus Settling Pond site. The new fencing installed for both areas is connected to the existing chain link fencing.

Any questions, please let me know. Thanks.

Chris,

Can you sent me some pictures about the new fence and sign?

Thanks

Jing

Chris,

Thanks for notifying me that PCB in excess of S.E.H criteria was detected in additional two locations outside the current fenced area. I will add this to the 2012 S.E.H. Please let me know once the fence is installed and the sign is posted. The 2012 S.E.H. will remain open until such mitigation actions have been completed.

Jing

Subject: Update on S.E.H. Notification_Eversource Energy - Berlin Campus Settling Pond Site

Jing

As part of the on-going site investigation work being completed at the Eversource Energy Berlin Campus Settling Pond (upland/wooded areas) Site located at 107 Selden Street, Berlin, CT, I have attached an update letter regarding the additional sample locations that have been identified to contain PCB concentrations in excess of the Significant Environmental Hazard (S.E.H.) Notification criteria in soil within the upper two feet of the ground surface. The initial S.E.H. Notification for this was submitted to the CTDEEP in September 2012.

Any questions, please let me know. Thank you.
