I am here to speak up about the eversource rate hike. It's not only disrespectful to the people of Connecticut but it is truly disturbing to use rate tactics like they are. Eversource already has the 4th highest rate for electricity in the country. Their CEO makes 15mil a year. Do you know that he makes 1.2m more a MONTH than I will make in a YEAR. The median salary for a single person in Connecticut is 74k a year. Do you recognize how absolutely fucking asinine it is for a 11% rate increase is. I hope the people who approve behavior like this burn in hell like they deserve.
