PUBLIC UTILITIES REGULATORY AUTHORITY

APPLICATION OF THE CONNECTICUT LIGHT AND POWER COMPANY d/b/a EVERSOURCE ENERGY TO AMEND ITS RATE SCHEDULES	:	**DOCKET NO. 26-05-10**
	:	**AUGUST 27, 2026**

MOTION FOR EXTENSION OF TIME BY THE CONNECTICUT LIGHT AND POWER COMPANY

The Connecticut Light and Power Company d/b/a Eversource Energy ("CL&P" or the "Company") respectfully requests that the Public Utilities Regulatory Authority ("PURA") grant an extension of time for the Company to submit responses to certain interrogatories issued by the Office of Consumer Counsel ("OCC") on August 17, 2026 ("OCC Set 7") and on August 18, 2026 ("OCC Set 8"), and also by The National Railroad Passenger Corporation ("AMTRAK") on August 18, 2026 ("AMTRAK Set 1"). Specifically, the Company seeks a 5 business-day extension of time for: OCC-402, 418, 421, and AMTRAK-005 (the "Outstanding Interrogatories") thereby moving the response deadlines to September 8, 2026 for OCC-402 and September 9, 2026 for OCC-418, OCC-421, and AMTRAK-005. The Company requests an extension of time for the Outstanding Interrogatories consistent with PURA's Notice of Proceeding issued on June 2, 2026 ("Notice"), which requires that any person requesting a procedural change or other PURA approval must file a motion. Notice at 2. Specifically, the Notice requires that motions for extension of time "shall be filed in advance of the prescribed deadline and should provide sufficient time for the Authority to consider timely objections and to rule on the motion." Id. The Company submits this Motion two business days in advance of the current due date for the Outstanding OCC Set 7

Interrogatory, and three business days in advance of the current due date for the Outstanding OCC Set 8 and AMTRAK Set 1 Interrogatories.

OCC-402 in OCC Set 7 was issued with an initial due date of August 31, 2026. OCC Set 7 encompassed a total of 12 individual interrogatories. OCC-402 seeks detailed information related to relevant aspects of the Company rate case application. Specifically, OCC-402 requests detailed information regarding bill impact analysis.

The Outstanding Interrogatories in OCC Set 8 were issued with an initial due date of September 1, 2026. OCC Set 8 encompassed a total of 14 individual interrogatories, plus sub-parts. The Outstanding Interrogatories in OCC Set 8 seek detailed information related to relevant aspects of the Company rate case application. Specifically, the OCC Set 8 Outstanding Interrogatories request detailed information regarding the Connecticut Advanced Metering Infrastructure proposal, customer bill impacts, benefit-cost analysis sensitivities, and alternative technology analyses.

AMTRAK-005 in AMTRAK Set 1 was issued with an initial due date of September 1, 2026. AMTRAK Set 1 encompassed a total of 5 individual interrogatories. AMTRAK-005 seeks detailed information related to relevant aspects of the Company rate case application. Specifically, AMTRAK-005 requests detailed information regarding interval length and billing methodology.

At this time, the Company has determined it is unlikely it will be able to produce complete and accurate responses to the Outstanding Interrogatories within the current due date. The Outstanding Interrogatories require in-depth research, data extraction, analysis and review, and input from subject matter experts and numerous individuals from various parts of the organization, including management personnel and legal counsel, to ensure complete and accurate responses.

The Company bears the evidentiary burden to prove the elements of its rate proposals, and therefore requires a fair and reasonable opportunity to collect and provide information sought by PURA and other parties in furtherance of that obligation. Although many aspects of a rate proceeding are reasonably anticipated by the Company, the Company cannot anticipate all permutations of information that may be requested; the timing of those requests; requests for specific documentation; or, requests that involve research of historical records, records of accounts, or even employee-related recollections. The Company must have a reasonable opportunity to respond with full and adequate information, consistent with the Company's due process rights to present its case.

The Company is working diligently and using best efforts to produce the responses to the Outstanding Interrogatories on a timely basis. However, for the reasons stated in this Motion, the Company requires a 5 business-day extension of time for the Outstanding Interrogatories in order to have a reasonable amount of time to research, prepare, review, and submit a complete and accurate response to the Outstanding Interrogatories. Where feasible, the Company has filed responses to interrogatories in advance of due dates. For the Outstanding Interrogatories that require a longer time to produce complete and accurate responses, the Company will continue to use best efforts to submit its responses as soon as possible. The Company has limited this extension request to only the Outstanding Interrogatories to ensure that it does not prejudice any other party.

The Company has informed OCC in advance of this Motion and received confirmation that OCC does not object to the Outstanding Interrogatories being filed on September 8, 2026 for OCC-402, and September 9, 2026 for OCC-418 and OCC-421. The Company reached out to AMTRAK

to inform them of the requested extension and to inquire about AMTRAK's position on the extension, however AMTRAK's attorney was not available to respond at the time of this filing.

WHEREFORE, the Company respectfully requests PURA grant a 5 business-day extension of time for the Outstanding Interrogatories, thereby moving the response deadline to September 8, 2026[1] for OCC-402, and September 9, 2026 for OCC-418, OCC-421, and AMTRAK-005.

Respectfully submitted,

THE CONNECTICUT LIGHT AND POWER COMPANY d/b/a EVERSOURCE ENERGY
