CONNECTICUT INDUSTRIAL ENERGY CONSUMERS
FIFTH SET OF INTERROGATORIES

The Connecticut Industrial Energy Consumers ("CIEC") requests responses from The Connecticut Light and Power Company d/b/a Eversource Energy ("CL&P," or "Eversource") to the following interrogatories in the above-captioned proceeding by **October 16, 2026**. If there are any objections to any questions, or if providing responses to certain questions would be unduly burdensome, please contact the undersigned counsel as soon as possible.

INSTRUCTIONS

The responses to these interrogatories and production requests must be submitted in the following manner:

A. Documents provided shall be complete and, unless privileged, unredacted, submitted as found in the responding party's files (*e.g.*, documents that in their original condition were stapled, clipped or otherwise fastened together or maintained in separate file folders shall be produced in such form). The responding party may submit photocopies (with color photocopies where necessary to accurately reproduce the document), in lieu of original documents, provided that such copies are true, correct, and complete copies of the original document.

B. Documents submitted shall be produced in the order in which they appear in the responding party's files and shall not be shuffled or otherwise rearranged. Mark each page with identification and consecutive document control numbers.

C. Data must be produced in the data format in which it is typically used and maintained. Moreover, to the extent a responsive document has been electronically scanned (for any purpose), that document must be produced in a readable and

accessible electronic format, with the opportunity provided to review the original document.

D. Provide English translations of all responsive documents that exist in a language other than English.

E. Documents to be produced include all documents in the possession, custody or control of the responding party, wherever located, including documents in the possession, custody, or control of the responding party's directors, officers, employees, representatives, or agents. Without limitation on the term "control," a document is deemed to be in a responding party's control if it has the right to secure that document or a copy thereof from another person.

CLAIMS OF PRIVILEGE

If you contend that any answer to any interrogatory or any document demanded by these interrogatories is privileged in whole or in part, file with your response to these interrogatories a statement in writing and under oath and in such statement: (1) identify each such interrogatory answer or document; (2) state its general subject matter; and (3) state in detail the basis for each claim of privilege made with respect to it. If a claim of privilege is made to only a part of a document, then in addition to the statement required herein, produce a public copy of such document from which the alleged privileged portion has been redacted, noting where in the document such redactions have been made.

SCOPE

If subsequent to your initial compliance with these interrogatories and production requests you discover additional or new material or information responsive to any interrogatory or request for production, or you discover that any response you provide herein was totally or partially incorrect or, though correction was made, is no longer true, you must promptly (a) file any additional responsive documents that come into your possession, custody, or control, or (b) file supplemented, corrected, and sworn responses. You are specifically directed to supplement, modify, or correct your responses to each of these interrogatories and production throughout until a final decision is adopted by the Authority in this Docket.

INTERROGATORIES

CIEC-23. Does Eversource utilize any artificial intelligence ("AI") system in any part of its electric distribution business? If the answer is in the affirmative, then:

a. specify each AI system utilized;

b. describe the use case(s) for each AI system; and

c. provide the policies, procedures, and protocols that govern the utility's use of each AI system.

For purposes of responding to this question, an AI system is defined as a machine-based system that can, for a given set of human-defined objectives, make predictions, recommendations, or decisions influencing real or virtual environments. Such systems include but are not limited to systems that use machine learning, large language models, natural language processing, and computer vision technologies including generative AI.
