Re: Docket No. 26-05-10 – Application of The Connecticut Light and Power Company d/b/a Eversource Energy to Amend its Rate Schedules – **CIEC Motion for Intervenor Status**

Dear Mr. Gaudiosi:

Pursuant to the Connecticut Gen. Stat. § 4-177a, the Connecticut Industrial Energy Consumers ("CIEC") submits this Motion to be designated as an intervenor in the above-referenced proceeding.

CIEC is a coalition of industrial and large commercial end-users that collectively employ tens of thousands of Connecticut workers at numerous locations throughout the State, including in the service territory of the Connecticut Light and Power Company d/b/a Eversource Energy ("Eversource"). As large, high-load-factor customers, energy costs represent a significant portion of CIEC members' total operating costs and CIEC participates actively in numerous proceedings before the Authority that relate to the cost, quality, and composition of utility services provided by Eversource. CIEC thus has a substantial interest in the outcome of this proceeding.

On May 20, 2026, Eversource submitted a notice of intent to file an application to amend its existing rate schedules ("Application"). The Authority subsequently established this contested proceeding to review the proposed amendments "upon receipt of a completed Application by Eversource."[1] CIEC's members have substantial interests that can only be protected in this proceeding, and the interests of CIEC's members – industrial and large commercial end-users – are not otherwise represented in this proceeding by any other party. Thus, CIEC's participation will contribute to resolving issues in this proceeding.
