Re: Docket No. 26-05-10 – Application of CL&P d/b/a Eversource Energy to Amend its Rate Schedules

Dear Attorney Pardee:

On September 15, 2026, The Connecticut Light and Power Company d/b/a Eversource Energy (Company) filed with the Public Utilities Regulatory Authority (Authority or PURA) a cover letter (Cover Letter) and two new exhibits to the Company's July 14, 2026 application to amend its rate schedules (Application). Exhibits CLP-ADDITIONS-4 Supplemental and Exhibit CLP-ADDITIONS-6 Supplemental (jointly, First Supplemental Additions Exhibits) provide final project documentation and actual costs of projects through June 30, 2026. Cover Letter, p. 1. Exhibit CLP-ADDITIONS-4 Supplemental also includes an update to the Company's planned capital provided in Exhibits CLP-ADDITIONS-4 for 2026 Projected Capital Spend. Id.

As stated in its September 1, 2026 ruling on Motion No. 9 (Motion No. 9 Ruling), the Authority's regulations provide that "[a]fter the first thirty (30) days following the date on which the rate application is filed the applicant may not amend or revise the level of rates shown therein except upon the granting of permission to amend by the commissioners upon motion by the applicant," and that "the public service company's direct case shall be limited substantially to the statement of application and the exhibits and materials annexed thereto unless the commissioners or the presiding officer shall rule otherwise for good cause shown." Motion No. 9 Ruling, p. 2 (citing Conn. Agencies Regs. §§ 16-1-58; 16-1-41). The Company's First Supplemental Additions Exhibits are new exhibits (i.e., the Company did not annex the exhibits to its Application) and serve to amend or expand the Company's Application; therefore, the Company is required to file a motion demonstrating good cause to amend the Application with these filings.[1]
